Entered at North Platte, Nebraska, Postoffic as second class matter.

FRIDAY, NOVEMBER 12, 1909.

An encouraging sign in the manufacturing circles is the ten per cent raise of wages granted several thousand employes of the steel plant at Bethlehem, Pa. The men are now receiving the scale in vogue prior to the depression of 1907.

THE labor conditions in Great Britain are going from bad to worse, according to the report of Consul General Griffiths, of London, to the department of commerce and labor. Wages are being reduced and the hours of labor decreased. There is a large increase in numbers of those registered as unemployed, which is causing grave concern. Last year the wages of 464,000 persons were reduced. During the six months of this year, the wages of over a million were cut down.

The crop reporting board of the department of agriculture in a preliminary report gives the indicated total production of corn for 1909 as 2,767,316,-000 bushels, against 2,688,651,000 as finally estimated last year with the quality as 84.2 per cent against 86.9 last year. The preliminary estimate of the average yield per acre of corn is 25.4 bushels, against 26.2 bushels finally estimated last year. About 3 per cent or 79,779,000 bushels of crop of 1908 is estimated to have been in farmers' hands on November 1, against 27 per cent or 71,124,000 bushels of the 1907 crop in farmers' hands at this time last year.

In fighting the Aldrich rate bill pass? ed by the Nebraska legislature of 1907 the railroads set up the plea that it is is found on top of the cage and two saws illegal because it is an interference with illegal because it is an interference with inter-state traffic. The railroads have retained a string of able railway attorneys and the state will be represented by Attorney General Thompson and his deputy, Grant Martin. Concisely stated, the railways deny that there is any power within any state by which that state may in any way effect the traffic of a railway doing an interstate business; and as nearly all railways do incourse have immunity from state legismoney and will prove good investments ter-state business; nearly all would of lation to the assumption should be held good.—Kearney Hub

Upholds Eight O'Clock Law.

The 8 o'clock closing law, known as the daylight saloon law, has been upheld by the supreme court. The court Tuesday affirmed the decision of the Douglas county court in its action in sustaining a fine of \$100 assessed against Frank Dinuzzo by the police court of Omaha for selling liquor after 8 o'clock in the evening.

The opinion was written by Justice Rose, who holds that the law is not unconstitutional; that the state has a right to limit the time for the sale of liquor; that the law simply amended that section of the Slocumb law which provided that saloons should sell liquor on Sundays and elections days; that the subject matter in the law is not broader than the title.

Nebraska Corn Crop Big.

The corn was injured very little in Nebraska according to statistics compiled by the state labor bureau. The total yield this year, according to the reports of the bureau, aggregated 166,-565,105 bushels, an average of 25.7 bushels per acre. Last year what was considered a bumper crop was 178,599,-000, an average of 28.17 bushels per acre. The acreage this year was slightly in excess of that of last year, being 6,477,282, as compared with 6,399,019 last year.

While there were places in many counties where the crop was badly injured by hot weather in August, the average yield far exceeds what was expected.

Lisco Land Sale.

ういろういとういきできるとうこう

Big Tract of Irrigated Land Opened in the North Platte Valley.

Payne Investment Company Having Successfully Colonized Scotts Bluff Country Secures Other Territory.

First Excursion will Visit Lisco Nov. 17th.

Lisco is on the new line of the Union Pacific in the new GARDEN COUN-TY. It is a part of the Reuben Lisco Ranch and largely under irrigation.

The development of the Scotts Bluff country has been a remarkable demonstration of what good land, well watered, will produce and it shows what a systematic effort at colonization by a capable firm may accomplish.

THE PAYNE INVESTMENT COMPANY, aided by a competent and well organized force of associate agents, has sold in the Scotts Bluff country since May 4th last

Nearly 20,000 Acres of Land for \$1,800,000.

There is a big demand for land in the North Platte valley, particularly irrigated land. The Lisco tract is not large and will not last very long. Many were disappointed in not getting into the Scotts Bluff country early in the game. Here is a chance to "get in on the ground floor."

LESS THAN COST OF WATER.

Under government irrigation projects the cost of water is from \$40 to \$80 cer acre. We will sell the Lisco lands, with water, for less than the government . pharges for water.

The North Platte river is a big stream and the water supply is abundant. The new line of the Union Pacific is being operated as far west as Northport and construction on up the valley has begun. Lisco will have excellent transportation facilities.

Lisco is already growing rapidly and with an irrigated country around it will soon be a flourishing little city. Join our
