

Employer-What we want is a night watchman that watches-somebody who can sleep with one eye open and both ears, and who is not afraid to tackle anything. See?

Applicant-I see, boss; I'll send me wife 'round.

They Didn't Have to Change.

During the years in which our pure food laws have been put into effect there has been a great hurrying and scurrying on the part of the food manufacturers to change their methods to make them conform to the law.

The Quaker Oats Company is a conspicuous exception. It was admitted that Quaker Oats was as pure and clean as possible and that it was an

it is so cheap that any one can afford it and so nourishing that every-one needs it. The result of last year's experiments at Yale and other points where food values were tested is that Quaker Oats has been adopted by many persons as their food on which they rely for adding vigor and endurance of muscle and brain,

The Quaker Oats Company meets all demands in the way it packs Quaker Oats; regular size packages and the large size family package; the latter, both with and without

A Revelation to the Cook. A happily married woman, who had enjoyed 33 years of wedlock, and who was the grandmother of four beautiful little children, had an amusing old colored woman for a cook.

One day when a box of especially beautiful flowers was left for the mistress the cook happened to be present, and she said: "Yo' husband send you all the pretty flowers you gits, missy?" "Certainly, my husband, mammy,"

proudly answered the lady. "Glory!" exclaimed the cook, "he suttenly am holdin' out well."-Ladles' Home Journal.

which to be especially thankful.

Thanksgiving Goodies.

In preparing for Thanksgiving day there are many of the good things that can be prepared some time in advance. The mince meat (without which Thanksgiving would lose half its charm), may be made early in November, and is better for standing to ripen. There are many delicious little cakes and cookies that will keep weeks without losing their daintiness.

Oyster Stuffing for Turkey. Mix three cupfuls of stale bread crumbs with one-half cupful of melted riety of foods is undesirable at the butter, salt, pepper and onion juice to taste; add one pint of cleaned have overeaten and the stomach has

No one enjoys the sight of a mixture; turn into a buttered pudding trailing bit of braid or facing, espe- dish and bake slowly two and one cially when it is fastened to her half hours, stirring the first half hour own skirt.

Do the shoestrings come untied? Moisten them just at the knot when tying. If the little tins on the ends come off, give them a good waxing with beeswax and save time and tem-

Never wear a shoe with the heel gradually then one-half of a cupful of badly worn at the side or back as grape juice, the well-beaten yolks of they throw the body out of its proper poise. A lift or two may be added add whites of the eggs beaten stiff and to the heels at any time with slight folded in lightly. expense.

Shoes last much longer if two or three pairs are worn alternately and the changing of the shoes is a great relief to tired feet.

Don't forget to black the heels when giving the shoes a shine

Household Hints.

A good furniture polish is made of equal parts of benzine and raw linseed oil. This is very good to use on hard wood finished woodwork.

Leave the piano open unless you wish to have the keys turn yellow. Clean the keys with a cloth dampened with alcohol.

Simple Remedy That Anyone Can Prepare at Home.

Most people are more or less subject to coughs and colds. A simple remedy that will break up a cold quickly and cure any cough that is curable is made by mixing two ounces of Glycerine, a half-ounce of Virgin Oil of Pine compound pure and eight sunces of pure Whisky. You can get these in any good drug store and easily gix them in a large bottle. The mixture is highly recommended by the Leach Chemical Co. of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure for dispensing.

THE DIFFERENCE.

"As there has been a change in our fortunes, Maudle, make haste and find a husband. You, Jack, don't make a fool of yourself by marrying."

SKIN ROUGH AS BARK. Baby Boy Had Intense Itching Humor -Scratched Till Blood Ran.

Found a Cure in Cuticura.

"Our son, two years old, was afflicted with a rash. After he suffered with the trouble several weeks I took him to the doctor but it got worse. The rash ran together and made large blisters. The little fellow didn't want to do anything but scratch and we had to wrap his hands up to keep him from tearing the flesh open till the blood would run. The itching was intense. The skin on his back became hard and rough like the bark of a tree. He suffered intensely for about three months. But I found a remedy in Cuticura Soap and Cuticura Ointment. The result was almost magical. That was more than two years ago and there has not been the slightest symp.om of it since he was cured. J. W. Lauck, Yukon, Okla., Aug. 28 and Sept. 17, 1908."

Potter Drug & Chem. Corp., Sole Props., Bostos

May Paste Million Posters. Artists, billposters, printers, paper manufacturers and tuberculosis fighters are all united in a gigantic crusade against tuberculosis which is about to be started under the direction of the National Association for the Study and Prevention of Tuberculosis. In addition to the gifts of free space on billboards and free printing of posters made by the Associated Billposters and Distributors of America and the Poster Printers' Association, several hundred paper manufacturers have given paper for the posters to the value of several thousand dollars, and artis's from all over the United States are contributing sketches for posters, free of charge. The local, state and national anti-tuberculosis associations will see that the posters are placed in cities and towns where they are most needed.

The posters are nine feet long and seven feet wide and will be printed in several colors. If sufficient paper is procured a million will be pasted up. The value of these various contributions would reach fully \$2,000,000 if paid for at commercial rates.

Unburdening.

"You must at least give that candidate credit for speaking his mind." "Yes," replied Miss Cayenne, "But it's unfortunate that people most willing to speak their minds are so often those whose mentalities are more or less unpleasant."

The optician would soon be looking for another job if beer glasses improved the eyesight.

RESULTS OF FOOD Health and Natural Conditions Come From Right Feeding.

Man, physically, should be like a perfectly regulated machine, each part working easily in its appropriate place. A slight derangement causes undue friction and wear, and frequently ruins the entire system.

A well-known educator of Boston found a way to keep the brain and the body in that harmonious co-operation which makes a joy of living.

"Two years ago," she writes, "being in a condition of nervous exhaustion, I resigned my position as teacher, which I had held over 40 years. Since then the entire rest has, of course, been a benefit, but the use of Grape-Nuts has ter, add one cupful of powdered sugar removed one great cause of illness in the past, namely, constipation, and its attendant evils.

"I generally make my entire breakast on a raw egg beaten into four spoonfuls of Grape-Nuts, with a little hot milk or hot water added. I like it extremely, my food assimilates, and my bowels take care of themselves. I find my brain power and physical condition much greater and I know that the use of the Grape-Nuts has contribated largely to this result.

"It is with feelings of gratitude that I write this testimonial, and trust it may be the means of aiding others in their search for health."

Look in pkgs. for the little book, "The Road to Wellville." "There's a Reason," Ever rend the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

CALLS FLIRTING A PERIL

Chicago Pastor Sees Homes Wrecked and Divorce Decrees in "a Menacing Evil."

Chicago,-"It is a long distance from a flirtation on the corner of State and Adams streets to what has become infamous at Newport and on the Riviera, but He who looks down from heaven has given but one name to the whole road, and that name is destruction. When flirtation becomes less common, popular and fashionable, the number of divorces and blasted homes will diminish."

That was Rev. Frederick E. Hopkins' introduction to his sermon in the Pilgrim Congregational church which, in part, was as follows:

"Flirtation is the cause of our social evil. It undermines the home. It makes marriage look like a failure. The rapidly increasing number of women who drink and smoke in fastionable restaurants shows where stations on the route are located and the

**NEW RAILWAYS IN** CENTRAL CANADA

AMERICAN SETTLERS WELCOME AND DOING WELL.

The Portland Oregonian, of Portland, Oregon, published a cartoon on the immigration of U.S. people to Canada, in its issue of October 5, 1909. The picture was accompanied by the following article:

"Losing American Citizens. The exodus of American farmers to Canada continues to be a phenomenon of the first importance. More of them are crossing the border this fall than ever before, and they are flocking from all parts of the country. Formerly it was the Middle West alone which thus lost the heart of its citizenship. Now all sections of the Union suffer alike. The regret which we cannot help feeling over the migration of many thousands of excellent citizens has an economic side which causes some concern. The 70,000 farmers who will go to Canada to live this fall will take with them some \$79,000,000 in cash and effects. This is by no means a negligible sum, and makes a very appreciable drain on our resources. But, of course, the most serious loss is the men themselves and their families, who have forsaken the land of the free and the home of the brave to dwell under the rule of a monarch.

Why do they go? Naturally the cheap and fertile land of Western Canada attracts them. Each emigrant goes with a reasonable expectation of bettering his fortune. Indeed, in a few years he may grow rich through the abundant crops he can raise and the increase of land values. But perhaps that is not the sole reason for the astonishing migration. There is a common notion abroad that in Canada life and property are appreciably safer than they are here. Murders are not so frequent, and are more speedily and surely punished. Mobs and the so-called 'unwritten law' are virtually unknown in Canada. Again the law is a vastly more ascertainable mit its judges to veto acts of the legbeen enacted it is known to be the law of the land until it is repealed. civilization a security and stability which we have not yet attained.

"We must remember, in the same ours, and much less boldly arranged Hence there is an impression, very "When men and women are loiter widely diffused, that the Canadians trusts as we are in this country. Rea-
