High Prices Here to Stay.
Champ Clark, the democratic minority leader, made the following interesting statement in the house a few days ago, "The present high prices for farm products have come to stay; the rural population is playing out; the present census, if it classifies the unincorporated villages as towns, will show between sixty and sixty-one per cent of the population as living in towns. At the present rate, in twenty years the United States will cease to be an exporting nation for agricultural products except as to cotton. One of the principal causes of the high prices of farm products is the world movement of people toward the towns and away from the farms."

The value of agricultural products grown in the United States last year was eight and three quarter billion dollar. This is a sum almost too great to comprehend. This is an increase of twelve per cent over 1908.

NIGHTS OF UNREST.

No Sleep, No Rest, No Peace for the Sufferer from Kidney Troubles.

No peace for the kidney sufferer—Pain and distress from morn tonight. Get up with a lame back. Twinges of backache bother you all day. Dull aching breaks your rest at night. Urinary disorders add to your misery. Get the cause—cure the kidneys. Doan's Kidney Pills will work the cure. They're for the kidneys only—Have made great cures in North Platte.
August Ackerman, North Platte, Neb., says: "For at least four or five years I suffered from catches and dull heavy pains through the small of my back, directly above my kidneys. I could not rest well and tossed about from one position to another until morning came. The kidneys were also disordered, the secretions being far too frequent in passage and forcing me to get up several times during the night. I was subject to headaches and dizzy spells and about a year ago was in a terribly nervous and run down condition. When I heard Doan's Kidney Pills so highly recommended, I procured a box at A. F. Streitz's drug store and I noticed an improvement after the first few doses. Thus encouraged, I continued using the remedy and I was restored to good health."

one-half of the total increase of the entire country in agricultural values, and their aggregate assessment exceeds the total of all the rest of the United States. The country's entire agricultural rating now is estimated at thirty billions of dollars, which is a gain of forty-four per cent in values since 1900.
It is apparent from the figures at hand that not only has the west made prodigious strides, but also that the tendency of the whole country has been to turn more and more to the development of the fullest possibilities for production of the fruits of the soil. This is as it should be, for as the population has been overtaking the crops of the country it has become necessary for us to enlarge our productivity, and it is manifest that the latter-day cry of "Back to the farm" is bearing abundant results and that we are cultivating our acres with vastly more intelligence and application, and with correspondingly golden harvests.—Omaha Bee.
