FRIDAY, JANUARY 21, 1910.

M. A. BROWN, of the Kearney Hub, has been re-appointed postmaster at Kearney. Editor Brown deserves to be postmaster as long as he lives, and even then the books would show a balance in his favor for the good work he has done for the republican party during the past thirty years.

"WITHOUT" says the State Journal, "throwing any discredit on insurgency, which is apparently setting the grass of Nebraska afire under the snowbanks, it can be said that the conference held the other day is looked upon by many people as the best joke Frank Harrison ever played on a bunch of confiding politicians."

THE Ord Quiz takes the ground that a man like Senator Burkett becomes more strong and useful to his constitnents each year of his service, and therefore the Senator should be re-elected. Undoubtedly that is the cor-rect view. During the first term a senator secures largely governmental information and acquaintance, and dur-ing subsequent terms he has the pres-tige to do good and efficient work.

The director of the thirteenth census of the United States is endeavoring to impress upon the minds of the people of the country the fact that the accuracy of the census depends upon the people themselves, and that it will not and ple themselves, and that it will not and cannot be reliable without the pains taking work of sixty-five thousand enumerators and the co-operation of all the rest of the people in giving information. Many corporations and firms are loath to give information, but they should not be, for nothing that they give out concerning their own business can be used to their disadvantage, being strictly and absolutely confidential.

For Sale.

John R. Walsh, of Chicago, like Charles W. Morse, of New York, has plead his last technicality and must go to prison. Two emminent financiers going to jail in a single month is a conspicuous spectacle. What does it mean? The meaning is clear and extremely significant. Morse and Walsh were both primarily promoters and only incidently bankers. Their banks, to them, were means of access to the people's money at low or no interest them, were means of access to the people's money at low or no interest and on slight security. They found it easier to get money for their speculative operations under the name of deposits than by straightforward borrowing. Morse aimed at an ice and a steamship monopoly. Walsh had railroads to float. All went merrily till a hitch came, and then the whole structure had to fall. Of course the zeronauts fall with the balloon. There are no parachutes of personal immunity as yet.

The report of the Wisconsin bureau of labor and industrial statistics on the workings of the direct primary in that state is just about what one could reasonably expect. The primary has brought the voters and their representatives nearer together. It has not destroyed bossism, but it has made the bosses much less potent in influencing public affairs. Little or no change has been made in the character of the nomiof labor and industrial statistics on th been made in the character of the nominees. Party lines have been somewhat effaced, due to the growing feeling of independence in voting all over the country, but in spite of this independent candidates have little show of described the country. dent candidates have little show of defeating the regular party nominees. This is due, of course, to the fact that the voters make the nominations directly and have no reason to be dissatisfied as a rule, with their own handiwork. The primary has not brought the political millennium, but it has made the government more responsive to the people by pulling the teeth of the party boss, and this is exactly what the primary was created to do.—State Journal.

## Maxwell Merchants Adopt Cash Plan.

We the undersigned business men and merchants of Maxwell, Lincoln county, Nebraska, covenant and agree with each other to adopt the following rule in our various lines of business, viz:

### On and After February 15th, 1910, We Will Sell for Cash, Note or Produce Only . . .

We request that all persons who are indebted to us shall make arrangements to settle all old accounts on or before said date. We are willing to do this in a satisfactory manner.

We are making this change for several excellent reasons and only after carefully considering all sides of the question. We believe it will be a distinct gain for our customers even more than for ourselves. In a cash business all losses on bad accounts from whatever cause are avoided, bookkeeping and collection accounts are done away with, there is no possibility of disputes and wrangles over accounts, the merchant always has ready money to buy goods at the lowest spot cash prices and profit by all discounts for cash.

To make up for these losses and various expenses we have been forced to charge enough for our goods to cover them by the profits. Every store doing a credit business must do this or quit. The people of this community want low prices, they want us to meet outside competition, to which they must pay cash. We can do this on a cash basis, in fact, can guarantee you, at least a

good saving on your purchases. This change of policy does not mean a sacrifice of quality or going back on the standard set ourselves. In every single item we shall give you better goods for the same price, or the same article for less where there has not been an advance in price. This change, too, implies no question of, or reflection on any one's ability to pay what he honestly owes or his willingness. It simply gives us the means to serve our customers better. The generous patronage you have given us we appreciate. We want you to continue it and we shall make it richly worth your while by the much closer price and cash business will enable us to quote.

We will sell for cash, note or produce only. No credit account will be run with anyone after February 10, 1910.
