

"Reason for Dinner Being Late."

It is usually because none of your clocks keep time correctly. It is surely a poor reason, as all that is necessary is to telephone number 338, and we will have our messenger call for same, they will be put in good shape and returned to you without delay.

You will have no such poor excuse in the future, and your meals will always be served at the proper time.

Don't put off calling us up if you have a clock now that wants attention.
