Dr. W. H. Kearns of Beatrice occupied the pulpit at the Presbyterian church Sunday. He was listened to with much pleasure by large audiences both morning and evening. An offering was taken for the missions of the church amounting to \$130. Dr. Kearns was shown through the new church and was much delighted with it, pronouncing it the finest Presbyterian church building in the state of its size and cost. The work of the choir was specially good. The duet sung by Mr. and Mrs. Leiniger and the solo sung by Mrs. W. V. Hoagland elicited much praise. When the new organ arrives the work of the choir will doubtless attract much attention.

The Y. M. C. A. basket ball team went to Maxwell Saturday evening and defeated the school team of that place by a score of fifty-six to twenty-four. ## Road and Shop Notes.

Ben C. Clinton, U. P. station agent at St. Paul, spent Sunday with relatives in town.

Leo and James Hart, of the sheet iron department, were called to Omaha yesterday by the critical illness of their mother.

Engine 133, which Grandpa Norton and Grandpa Hartman claim is the best owned by the Union Pacific, went into the shops for light repairs yesterday.

Eleven passenger trains passed east during the daylight hours Sunday—four sections of No. 4, three sections of No. 10, No. 16, No. 2, No. 12, and No. 14.

Machinist J. P. Norton left Saturday night for Excelsior Springs, Mo., where he will recuperate for a couple weeks. He has been troubled with a disordered stomach.

Several cars on train No. 16 were derailed at Vroman Friday, but fortunately no one was injured. It required a dozen hours for the wrecking crew to put the track and cars in shape.

A. J. Adams, general foreman of track work, moved the track-laying crew from Gothenburg to Willow Island Friday morning. They will soon have the new track laid from Kearney to North Platte with 90-pound steel rails.

At a meeting of Division 88, B. of L. E., last week resolutions were adopted regretting the departure of W. L. Park from the Union Pacific, extolling his excellent work while connected with that road, and wishing him success in his new field of labor.

A Chicago dispatch says: It is unofficially announced that the committee of railroad managers yesterday refused in substance every concession demanded by the Brotherhood of Locomotive Firemen and Enginemen, representing 25,000 men on forty-nine different roads running through the west and southwest, excepting arbitration of the wage question. The men had voted by an overwhelming majority to strike, and this vote was laid before the railroad managers' committee by the committee representing the men. The men are more insistent that the managers concede them the right to be represented by a committee of their own in the application of the seniority rules than they are for a wage advance. An average of 12 1/2 per cent advance is the final demand of the firemen. They claim that the schedule submitted last November has been modified in the hope that an amicable adjustment could be made. An official of the firemen's brotherhood says a strike appears imminent.

Advance displays of spring millinery show creations of a brilliancy that will make the young girls appear as expanded rainbows and the spinsters as floral conservatories. Few ladies in North Platte need any artificial means of enhancing their loveliness, but with these new spring hats they will certainly cause the hearts of men to flutter.

# WALK-OVER SHOES.

## "Know-How"

WALK-OVER SHOES contain the best of leather, the best of thread, and the best of the various other materials that go into the making of a pair of shoes.

But in addition to this, there is one other quality the WALK-OVER "Know How", the art by which all these selected materials are wisely combined and each separate part made to do its full duty.

It is this "Know-How" that gives WALK-OVER SHOES their superior style, fit and service, and that makes the WALK-OVER the shoe for you.
