During the past week this office has received information from three different sources, and each apparently reliable, that the Burlington will build its Platte valley as soon as the present lines now being constructed in Wyoming are completed. The work in Wyoming is handicapped by lack of men, the present force employed being about one-tenth the number desired.

## Evaporator Gasoline Ranges

Talk about beauties! Say, they're so good that they won't last long because there are several newly married couples "off the gas-line" who won't be happy though married unless they own one of these Ranges.

The Jewel Evaporator Ranges are the very finest in the way of gasoline stoves that have ever been offered to the public—they are the acme of perfection in stove construction—have so many good points that they've got to be seen to be appreciated. Will you come in and look?

## Last Night's Sporting Events.

The much heralded boxing contest between Fred Ouimette of this city and Nat Dewey, a colored pugilist of Cheyenne, was pulled off at the opera house last evening in the presence of an audience of at least seven hundred. The contest, however, proved a disappointment; for it proved a rather tame affair. In none of the fifteen rounds did the two men do damage to each other, and few blows were struck that had any amount of steam behind them. Sparring for possible openings constituted the greater part of the contest. Under these conditions the go was a disappointment and the audience so expressed themselves.

The preliminaries were really better than the main events. "Humpty" Nunn and "Kid" Ackers went in on a five round go, in which the boys fought rather viciously, Acher getting the decision. Tad Thompson and Swede Westburg were scheduled for five rounds, but Thompson sprained his ankle in the fourth and the fifth was not fought. This was a "peach" of an encounter, the boys going at each other in hammer and tongs style, with Westburg proving a little the better of the two. The third event was a wrestling match between Fred Kubik of this city and Tom Carlyle, of Sutherland, in which the former was to throw the latter within fifteen minutes. This, however, he failed to do. Carlyle proved to be a strong and agile wrestler and while on the defensive at all times, proved that in a match he would make a rather tight proposition for Kubik.

## Special Meeting of Council.

A special meeting of the city council was held yesterday afternoon and the park committee was authorized to have the new park recently purchased by the city in the Trustee's addition enclosed with a wire fence and have 200 trees set out around the park between the outer sidewalk line and the curb line. This work will be performed at the earliest possible time.

The judiciary committee was directed to write the census director of this district, Joseph Pigman, of Broken Bow, and offer assistance in whatever way possible in securing an accurate census of the city. It is a difficult matter to secure an accurate enumeration in North Platte on account of the large number of young men employed by the railroad company who room in business blocks as well as in private and rooming houses.

## Firemen's Dispute Settled.

A Chicago dispatch dated yesterday said: All questions in dispute between the 30,000 firemen on western railroads and the railroad managers will be amicably settled, according to an arrangement reached today through the aid of United States Commissioner of Labor C. P. Neill. It was agreed by W. S. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen, and his committee, and the general managers' committee, representing the forty-seven railroads involved, to settle the controversy in the following manner.

The question of seniority, or the promotion of old-time firemen over new men, and the question of new representation by the union of firemen who have been promoted to be engine-men, are to be compromised before any arbitration is attempted. The demand of the men for an increase in wages of 12 per cent is then to be submitted to arbitration under the Erdman act.

In previous negotiations the railroad had agreed to arbitrate the wage question, but had declined to arbitrate the other two points on the ground that they were points of discipline and authority only.

## Saved a Soldier's Life.

Facing death from shot and shell in the civil war was more agreeable to J. A. Stone, of Kemp, Tex., than facing it from what doctors said was consumption. "I contracted a stubborn cold," he writes, "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 178 pounds." For Coughs, Colds, LaGrippe, Asthma, Hemorrhage, Hoarseness, Croup, Whooping Cough and lung trouble, its supreme. 50 cents, 1.00. Trial bottle free. Guaranteed by Stone Drug Co.

## A Remarkable Banquet Party.

One of the most notorious Hungarian duelists fought his thirty-fifth duel in 1886 and celebrated the event by a banquet, to which only those who could prove that they had participated in at least six duels were invited. There was a room full of such warriors, some with faces scarred with scars, others minus an ear, an eye or with two or three fingers missing. The most marked of all was a Frenchman who had lost his nose in an encounter with Count Andrassy, the statesman. There was only one relaxation of the rule, and that was made in favor of a lady who had killed her man.

## Literally So.

Owing to a change for the worse in the character of the neighborhood a family which for many years had lived in the same house was compelled to sell it and move elsewhere. Their old house became a home for aged colored women. One day a member of the family happened to visit it. Things were indeed different within. Being one of those who harbor a sense of humor, the former occupant in describing his impressions while among the aged colored women, with whom his old abode was filled, remarked: "I may truthfully say the whole complexion of the place has changed." —New York Times.

## Making the Choir Sing.

Many conscientious ministers have had trouble with wayward choirs, but not all have had Dr. Samuel West's witty address or management. There had been difficulty with the singers, and they had given out that they should not sing on the next Sunday. This was told to Dr. West. "Well, well, we will see," he said and on Sunday morning gave out his hymn. After reading it he said very emphatically, "You will begin with the second verse: 'Let those refuse to sing Who never knew our God.' The hymn was sung."

## Followed Instructions.

At Gloucester some time ago a man was sentenced to one month's hard labor for stealing a bottle of medicine that he had been asked to deliver by the doctor in the village in which he lived. Some months after he was brought up on a similar charge and when in the dock was asked what he had to say in his defense. "Well, your honor," he replied, "I was asked by the doctor to call again for another patient's medicine, and the bottle stood on the doctor's desk labeled, 'To be taken as before.'" He was discharged amid roars of laughter.—London Fun.
