Bent Discharged.

Frank H. Bent, of Wallace, charged with the illegal sale of liquor at his drug store in that village, had his hearing in the county court yesterday and today, and was discharged by Judge Elder, the evidence not being sufficient to hold the defendant to the district court. There were twelve counts in the information, and the complaining witness was Rev. Tweedy. The liquor taken from the drug store by the sheriff under a search warrant was ordered restored to the defendant.

Stovall Fires a Gun.

Claude Stovall, charged with shooting, was brought down from Sutherland by A. B. Yates last night and lodged in jail. Stovall is the young man who a couple of years ago forged a check on his uncle Wm. Beauchamp, of the northside, and found guilty, was sent to the penitentiary by Judge Grimes. After serving his term, Stovall associated himself with a woman who he says is his wife, and started out touring the country in vaudeville stunts. The couple gave a performance at Sutherland, and some of the "touch only the high place" boys of that village smiled on the female vaudevist with broader smiles than Stovall thought was necessary. He became angered and pulling a gun shot in the air or ground—at least he fired the weapon. Nobody was hurt, but he was gathered in by the peace officer and brought to the dungeon. It is said the affair will be smothered as quickly as possible.

Capital Removal Campaign.

A Grand Island dispatch to the Bee, dated yesterday says:—A meeting of the Commercial club has been called for tomorrow evening for the purpose of discussing the action to be taken with reference to securing a vote by the people of the state on the capital removal proposition before any appropriation or levy is made for a new capital building. The aim is to cooperate with every city and county in central and western Nebraska. Kearney's Commercial club already has a committee on publicity and the fact is recognized fully that up to the point of fixing a new location, if it comes to that, the interests of the various cities are identical. There is little doubt but that there will be united action, definite plans to that effect having been, in a measure, formulated.

Residence Lots.

There are more new houses being completed and built in the Trustee's Addition this spring than in any other 10 blocks of the city.

There is a Reason.

The reason is that each lot has

1. Five foot cement sidewalks,
2. Graded streets,
3. Sewer,
4. City water,
5. Free delivery of mail.

When the Waterworks controversy arose and neither the Waterworks Company nor the city would provide water mains, an order was entered in the court having charge of this bankrupt estate, directing the Trustee at its own expense, to lay water mains for all persons needing the same in the Trustee's or Riverdale Additions. These water mains are now being laid. The Trustee laid at its own expense five foot cement crossings.

The Trustee's Addition is being improved with better improvements than elsewhere in the city, because the lots are purchased by those who build their own improvements. It is not a tenement district.

Lot Prices \$250 to \$400.

Five per cent discount for cash. Time payments, one-tenth purchase price down and one-tenth every three months.
