For fifty years or so, "St. Elmo," Augusta J. Evans' novel, has been one of the most popular books by a native writer. It has always been regarded as a particularly charming romance of the South, the creation of a Southern author, whose sympathy with her subject rendered her work particularly effective. The incidents narrated in its pages have tempted the dramatist more than once and now comes the announcement that a new version has been put before the public. This latest is the work of Neil Twomey, an author of experience and a stage director of ability, who according to the management of the play has prepared a drama that will appeal to the fastidious theatre-goer. The play is announced at the Keith Theatre Friday evening of this week.
