TWENTY-SIXTH YEAR.

NORTH PLATTE, NEBRASKA, APRIL 26, 1910.

NO 27.

Residence Lots.

There are more new houses being completed and built in the Trustee's Addition this spring than in any other 10 blocks of the city.

There is a Reason.

The reason is that each lot has

1. Five foot cement sidewalks,
2. Graded streets,
3. Sewer,
4. City water,
5. Free delivery of mail.

When the Waterworks controversy arose and neither the Waterworks Company nor the city would provide water mains, an order was entered in the court having charge of this bankrupt estate, directing the Trustee at its own expense, to lay water mains for all persons needing the same in the Trustee's or Riverdale Additions. These water mains are now being laid. The Trustee laid at its own expense five foot cement crossings.

The Trustee's Addition is being improved with better improvements than elsewhere in the city, because the lots are purchased by those who build their own improvements. It is not a tenement district.

Lot Prices \$250 to \$400.

Five per cent discount for cash. Time payments, one-tenth purchase price down and one-tenth every three months.

The annual meeting of Group Five of the Nebraska Bankers' Association will be held at Masonic hall in this city May 12. The session will be held at 10:30, and will close with a banquet tendered by the local bankers. Group Five of the association covers a territory 400 miles long and within this territory there are over 200 banks. It is expected that a majority of these financial institutions will send a representative to the convention.

Evidence in Waterworks Case.

Evidence by deposition in the waterworks injunction case was taken Saturday before Mrs. Finley, of Omaha, an examiner of the United States court. City Attorney Halligan and J. G. Beeler represented the city and Attorney Brogan the water company. President Hoffmaster, and Receiver Slocumb, of the water company, were also present. The testimony of twenty-five or more witnesses were taken. The case will go before Judge Munger for argument at an early day.

Contract Let For Payne House.

This sum does not include the heating plant nor the electric wiring or painting, which will bring the total cost up to \$8,500. The contractors say that work will begin at once and that the residence will be completed by November 1st. In exterior architecture and interior arrangement the house is modeled closely after the Mrs. Ray Langford residence.

Clarence Howard, of St. Louis, president of the Commonwealth Steel Co., and at one time a machinist in the North Platte shops, in a letter to E. R. Mr. Howard writes that for both his good physical condition and his financial success he owes much to Christian Science, and to this gratitude is added the warm feeling that he entertains for North Platte, hence his wish to make the gift. Two social functions were held at the Cody ranch Saturday and Sunday, both of which were given in favor of Miss Nell Evans, of Columbus, who is the guest of Mr. and Mrs. Garlow and will become a bride in May. No? WHY?

Because it hurts:—Well, my dear sir, it hurts your carpets and rugs to beat them; wears 'em out; makes you spend your hard earned money for new ones; ever stop to think of that? Love your wife and she won't need beating; treat your carpets RIGHT and THEY won't need beating. Clean 'em with a
