The hill climbing contest at the Dempcy ranch last Sunday awakened considerable interest among automobile owners. Practically every owner of a car thinks his machine can climb the hill. Geo. A dispatch from Chicago quotes Burlington officials as showing solicitude over the labor problem. They say that 40 per cent of the men gathered up in the cities and sent out to do work desert, either before going to work or soon after, for farm and ranch work. THE Gossard CORSETS
"They Lace In Front"

They lace in front—as a result the abdomen is relieved of all pressure. Support is given to the organs and deep breathing is encouraged. They emphasize the long graceful line of the back, which artists agree is the most beautiful line in art. They gently but surely compel a correct standing position and a graceful carriage. We invite you to investigate these wonderful corsets.

CARPETS.

The spring is still young yet we have already sold dozens of carpets. We attribute the most of these sales to the low prices we are asking. The only other reason we can think of is that the stock is very complete now and that there is a greater range of patterns to select from than has usually been shown. But whatever it is we know that people are more than satisfied with our assortment and prices. You will be too if you will pay this department a visit.
