We claim through his efforts to have the best road through the worst place in the State. Now if you fellows will drag the grade west of your town and make it as good, we will take off our hats to you or yours as we come from the west into your lovely city.

Third Annual Farmers' Picnic.

Supt Snyder, of the experimental sub-station, informs us that Wednesday, July 13th, has been selected as the date for holding the third annual farmers' picnic at the sub-station. The program has not yet been arranged, but an invitation will be extended to Governor Shallenberger, State Senator Brown and other well-known Nebraskans to be present and deliver addresses. It is hoped that the farmers of this and adjoining counties will display the same interest in the coming picnic that they did in the one held last year and the year before, and that they will attend. It is not only an occasion for an outing, but the experiments conducted at the station are of benefit to every farmer who interests himself in them.

Start out on "Hike."

Small Grain Finest Ever.

W. S. Ross, of Myrtle, who was in town Saturday, said he has lived in Lincoln county for twenty-three years, and never has he seen such fine prospects for a bumper crop of small grain in the north part of this county. A Woman's Great Idea.

It is how to make her self attractive. But with out health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c. at Stone Drug Company Co.
