I. N. Hatfield of Lincoln has taken charge of Bryan's senatorial campaign which may now be considered fairly launched, notwithstanding Mr. Hitchcock's continued assertions to the effect that Mr. Bryan has given his word that he will not be a candidate. The fact is that Bryan always played in the role of a spectator. He would not be a candidate for senator as other men are candidates. But who doubts that he is quietly and expectantly waiting for the announcement that 25,000 democrats have petitioned him to get into the political breach to save the party.—Kearney Hub.

Argue Water Case.

J. J. Halligan and J. G. Beeler were in Omaha Saturday representing the city in an argument before Judge Munger of the United States court of the case brought by the waterworks company against the city. There were also present at the argument Mayor Patterson, John Bratt and Dr. McCabe. Two suits had been brought against the city, one for a specific performance of contract, that is the purchase of the plant at the appraised value of \$85,000, the other for an injunction enjoining the city from building a new plant. By stipulation, however, these two suits were joined, and the main contention in the argument Saturday was whether the resolution passed by the council authorizing the appraisal of the plant formed a contract. The attorney for the waterworks company argued that this was a contract and that the city was bound to buy the plant at the appraised value; while the attorneys for the city contended that it did not form a contract.

The case was taken under advisement by Judge Munger, and it is probable that a finding will be made within two or three weeks.

Messrs. Halligan and Beeler are said to have made strong arguments.

Preparing for Dedication.

Final arrangements are being made for the dedication of the Presbyterian church next Sunday. An unusually attractive musical program is being prepared under the leadership of Mrs. E. A. Cary, Mrs. Chas. Leininger, Mrs. Edgar Schiller and the choir. Interesting speakers will be present.

The dedication will be made at the 10:30 o'clock service. At 2:45 p. m., there will be a fellowship service participated in by the pastors of the city. The evening service at 8:00 o'clock will be addressed by a layman and will be especially interesting to laymen. A complete printed program will be distributed to the congregation, and a more detailed statement will appear in Friday's paper.

The Overland

The Choice of Thousands of People.

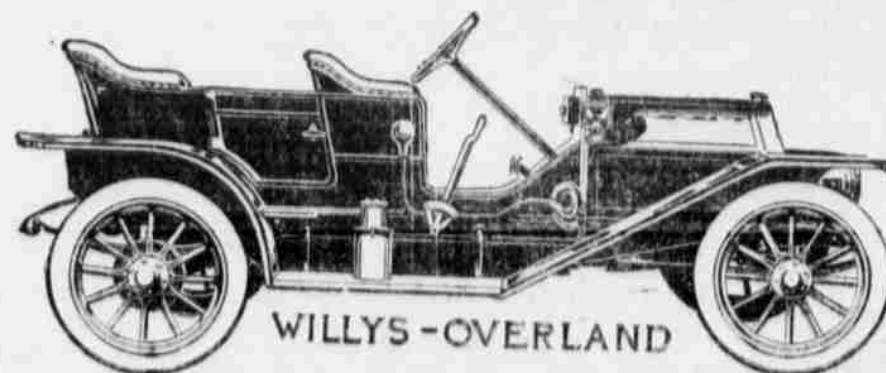

Twenty thousand people are buying Overland cars this year. Many thousands more will be disappointed would-be purchasers. The enormous Overland factories are taxed to their utmost to meet the overwhelming demands.

What the People Want.

What is the reason for the great popularity of Overland cars? Why is it, the demand for them has swept the country like a flood? The Overland cars are popular because they fill the people's wants. The average person doesn't want a high-priced car. He can't afford the constant drain on his pocket book the upkeep entails. At the same time he doesn't want a cheap assembled car which will hardly last through one season. He wants a good car at a moderate price. A factory made car, which, backed by a sound organization, will give him a dollar for dollar in return. He gets such a car in the Overland.

A Factory Built Car.

The Overland is a factory built car in the strictest sense of the word. With the exception of such parts as magnetos and tires the car is built throughout in Overland factories. No "piece work" is done in our shops. Nothing hurried and slipshod. Our cars are built by automatic machinery—exact to a thousandth part of an inch. Absolute interchangeability of parts. Standard jigs and templates and the best material obtainable are used. How can we sell these cars so cheap? Because we are content with a fair profit. When you buy an Overland you don't help to support an expensive racing team and a costly overhead organization.

Overland model 38—price \$1,000. 25 h. p. Motor, 102-inch wheel base with single rumble seat, \$1,050—double rumble seat, \$1,075—complete Toy Tonneau, \$1,100.
