Fireman Snyder Killed.

Fireman John B. Snyder was instantly killed at Brule, ten miles west of Ogalalla, early yesterday morning by being struck by the engine pulling passenger train No. 15. He was thrown fifty feet by the impact and his head crushed to a pulp. The exact conditions under which Snyder met his death are not known. He was firing for Engineer Huxoll and their train had orders to take the passing track at Brule for No. 15. This they did and Huxoll got off his side of the engine, leaving Snyder in the cab. The next time Huxoll saw Snyder it was to view his dead body. The supposition is that Snyder got off his engine just as No. 15 approached, and either fell on the track or leaned over far enough to be struck.

The remains were taken to Ogalalla where an inquest was held, and later were brought to this city and prepared for burial by Mr. Ginn. Last night the body was taken to Arapahoe for interment, accompanied by Firemen Moore, Norris and Bergstrom.

The deceased came here eight months ago and accepted a position as fireman, and next Tuesday evening was to have been initiated into the local lodge of the firemen.

THE Gussard CORSETS

"They Lace In Front"

They lace in front—as a result the abdomen is relieved of all pressure. Support is given to the organs and deep breathing is encouraged. They emphasize the long graceful line of the back, which artists agree is the most beautiful line in art. They gently but surely compel a correct standing position and a graceful carriage. We invite you to investigate these wonderful corsets.
