FRIDAY JULY 28, 1910.

The county option plank adopted by the republican state convention reads as follows: For the further regulation of the liquor traffic in Nebraska, we are in favor of the passage of a county option law by the next legislature, and pledge our candidate for governor if elected to approve such a law on that subject as the legislature may enact.

Never in the history of Nebraska have so many voters been without a political home. They have grown dissatisfied with the actions of both parties, and feel inclined to cast partisanship aside and vote for whom they consider the best qualified for office regardless of political complexion. Will they get into the "band wagon" as the fall campaign draws to a close?

With the republican party of the state advocating county option and the democratic party opposing it; with certain republicans opposing the measure and certain democrats under the leadership of Bryan favoring it, who will the harvest be politically this fall? Sure the condition is a mix-up, and it is a wise prophet who can at this time make a reliable forecast.

Governor Shallenberger has chosen the psychological moment to stir up the liquor sellers of Omaha, by directing the attorney general to proceed against Chief Donahue and other officers for failure to enforce the liquor laws. Shallenberger knows that the Omaha vote at the primaries is for Dahlman any way so that he will not lose anything there, while he has everything to gain by getting in line with the temperance sentiment in the state. The move is clever and very much like our foxy Governor Shallenberger. — Kearney Hub.

Railroad gross earnings form a sure index to actual conditions and this being true, we must conclude that real business is on the upward grade, for railroad gross earnings are inclined that way. Taking fifty-three of the leading railroads the country over, the Financial Chronicle, a weekly publication decidedly friendly to the railroads, shows an increase in aggregate gross earnings of \$3,856,824, or 15.14 per cent for the month of June over the corresponding month last year and these receipts exceed any for a June since 1907, when every record was broken. But, we find from still later compilation, that this increase is still going on and for the first two weeks in July there was a total railroad gross earning of \$16,419,871, for all roads reporting, which represents a 9 per cent gain.—Bee.

The Union Pacific recently made final report of the recent wreck at Brady between the work train and passenger train No. 16. The report in conclusion says: W. B. Smith, dispatcher, has been discharged for failure to exercise due caution in moving No. 16 on opposite track until he was positive the track was clear. H. B. Ford, operator, has been discharged for accepting a train order for work extra, not having advised the dispatcher that the work extra had arrived and departed before he had accepted the order. T. C. Gorham, conductor, has been discharged for not giving his flagman specific instructions of the rights of trains. H. B. Hart, agent at Brady Island has been suspended fifteen days for giving dispatcher wrong information in regard to the work extra. R. D. Batie, engineer, has been suspended fifteen days for failure to have understanding with the conductor in regard to instructions given the flagman.

Corn at a Critical Stage.

Concerning the condition of the corn crop, The Twentieth Century Farmer, the leading farm magazine of the west, has this to say:

"The present growing corn crop is now at its critical period. Large sections of the big corn-producing country are experiencing dry weather, a condition verging into crop damage. In such districts relief by rain must come very soon or the crop will be shortened, and the extent of this shortening will depend on how soon it gets the needed moisture. Corn cannot be produced without rain or artificial moisture. At the present period of corn crop growth a big rain of two inches or more insures the crop for ten days or two weeks, no longer, and this depends entirely upon the kind of weather intervening. Very hot, windy weather soon takes up the moisture, then more is demanded to help mature the crop.

Favors Re-Appportionment.

One of the planks of the republican state platform reads as follows: We favor the passage of a new apportionment law at the next session of the legislature, redistricting this state into senatorial and representative districts, giving to each fair and equal representation based on the population as shown by the census of 1910, and if the legislature which is elected this fall, fails to perform this constitutional duty while in regular session, we pledge the people of this state that the republican governor, if elected, will convene the legislature in special session until this constitutional duty has been performed.

May Collect Penalties on Rentals.

The Washington State Supreme Court has held that a telephone company has the right to charge an extra fee for collecting rentals from subscribers, although its franchise fixes a maximum amount to be charged for the use of telephones. The ruling was made in the case of Thomas MacMahon, of Seattle, against the Independent Telephone Company.

MacMahon had ordered his telephone removed, but the company had refused to take it out until he had paid 50 cents a month for collecting the back rentals. The Superior Court had sustained MacMahon, but the higher court sends the case back with instructions to find for the company. In a majority opinion Judges Morris, Rudkin, Chadwick and Gose held that the collection charge is not in addition to maximum rate, but rather a charge for a default and delinquency. Judge Fullerton in a minority report says the franchise does not give the company the right to impose fines and penalties.—The Telephone Weekly.

Watchman Makes Statement.

North Platte, Nebr., July 27, 1910. Editor Tribune: In your article of July 25th dealing with the accident which occurred on the Locust street crossing Saturday evening, your statements are misleading to say the least. Being the person blamed, I wish to make a statement and expect as fair a treatment as the other party, as I am also a citizen of North Platte of many years residence. The railroad crossing is a point of danger and should be approached carefully by a high speed machine. Contrary to your statement the whistle was blown and the bell rung, and I myself was in the center of No 2 track trying to flag Mr. VanNatta. Now he was not traveling at six miles an hour but at the rate of twenty-five or thirty miles per hour. He was not looking for a train, nor paying any attention to the flagman. This statement is made to do justice to both parties involved and also to call attention to the disregard of the speed law by persons driving automobiles. With due regards to Mr. VanNatta, I am respectfully  
 THE FLAGMAN.

O'Fallon News.

Mrs. S. E. Cox is enjoying a visit with relatives in Colorado. Harvesting is nearly completed in this section. The Brownies were defeated by a Hershey pick up team last Saturday. The threshing machine can be heard in and around this vicinity again. On August 9th the Brownies will play the Kansas city Bloomers on the Hershey grounds. Everybody come and see a good game. Admission 25c. Quite a number of this vicinity attended the Chautauqua at North Platte last week. The corn has commenced to dry up and if it does not rain or the water come down the ditch in the next week, there will be no corn. The boys are practicing so as to make those Bloomers earn all they get on Aug. 9th.

Announcement.

I hereby announce myself as a candidate for re-election for representative of the 54th district subject to the approval of the republicans at the August 16th primaries. I have no extended platform, but agree if elected to work for the passage of good progressive legislation and for the best interests of the district and state. As this is census year the next session will be the proper time to redistrict the state and I consider it very important that this be done and that the west gets proper representation.  
 Respectfully submitted,
