## TOWN AND COUNTY NEWS

Work will begin this week on the new Union Pacific coal chutes at Gothenburg.

Steel ceilings have been placed in the rooms occupied by the Model Clothing house and the American restaurant.

Miss Geraldine Bare was hostess this forenoon at a card party given in favor of Miss Hazel McGuire.

Marshal W. T. Elliott, W. W. Winquest, Geo. Brown, Wm. Peterson and Ira Burke of Brady, were in town yesterday on business connected with the George estate.

First Asst. Grand Engineer H. E. Wills, of the Brotherhood of Locomotive Engineers, spent Saturday in town and met members of the local division at a meeting held in the afternoon.

Farmers who were in Saturday from the north part of this county and McPherson reported their corn in very good shape up to that time. In McPherson county there will be a good crop of hay.

Congressman M. P. Kinkaid arrived in town Sunday morning and remained until an afternoon train. During his stay he met a number of republicans and talked over the political situation with them.

The independent reports that around Gothenburg a great deal of the corn is so badly burned that it will not make good feed, to say nothing of making a crop, and without rain soon there will be no corn, whatever.

It is said that Albert LeDoyt, who quit railroading last spring and engaged in farming near Paxton, has lost the greater part of his crop by dry weather, and will return to this place and take up his former vocation.

H. S. Keith arrived from Omaha Sunday and yesterday assumed his duties as cashier at the Pacific Hotel. He is receiving a warm welcome from his old time friends. Mr. Keith left North Platte twelve years ago after having resided here for twenty years.

The initial concert by the cornet band at the court house park Friday evening was largely attended, and the excellent program so well rendered proved very entertaining. All will be well pleased to know that the concerts will be continued for a number of weeks.

James Belton tells us that he has not abandoned the idea of putting up a brick building on the lot between the Odd Fellows' hall and the Keith theatre, and that he will probably do so this fall. The replacement of the present building by a brick structure would certainly add to the appearance of that section.

Rev. T. J. Brown and family left yesterday for Madrid, where they will make their future home. Mr. Brown will become the pastor of the Congregational churches at Madrid and Venango. For a number of years past Mr. Brown had been employed as Sunday school missionary in this and adjoining counties.

Thos. Healy has let the contract to Picard Bros. for the erection of a two story eight room house on his lot on West Fifth street. The house will have all the latest modern improvements including a heating plant. The contract price is \$7,000. Mr. and Mrs. Healey expect to occupy their new home about the of the new year.

Nearly everybody will want a state daily during the political mix-up now going on and the Lincoln Journal cuts its price until January 1, 1911 to \$5 with Sunday for \$1.50 without. You know why The State Journal is the paper to give the straight of what is going on and you'll get a lot for your money if you send in right away.

County Assessor Bacon and County Commissioner Springer appeared before the state board of equalization at Lincoln last week and denied the complaint of the board that personal property in this county was assessed too low. Messrs. Bacon and Springer easily convinced the board that the assessed values in this county were plenty high—as high as in surrounding counties.

Mrs. F. W. Rincker was the hostess at a very pleasant affair Friday evening when she entertained twenty-eight young people in favor of her house guest, Miss Hazel McGuire, of Cheyenne. The porch and lawn were gaily decorated with Japanese lanterns and the flowers and trees made a pretty background for the picnic supper which was served at seven o'clock. The remainder of the evening was devoted to dancing, and the playing of old fashioned games and a jolly good time was indulged in until a late hour. Mrs. Rincker was assisted by the Mesdames Streitz, Stuart and Bare.

Buy it now. Now is the time to buy a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over. This remedy has no superior. For sale by all dealers.

A marriage license was issued yesterday to Ira E. Sage aged 28 and Caroline Roberts age 24. Both gave their address as Maxwell.

Mrs. David Scott left Saturday night for Laramie to attend the funeral of her sister Mrs. John Davis. She will be accompanied home by the two Davis children.

Mrs. Poor, of Pittsburg, Pa., who has been making her home with her sister, Mrs. John Singleton for some time past, has accepted a position as clerk in The Leader.

J. B. McDonald is able to leave the house and with the aid of crutches manages to look after business affairs. He will soon be recovered from his experience in the auto accident.

Deputy County Treasurer Durbin has been suffering for ten days past with a felon on the little finger of his right hand. It is now improving, much to his relief, as it has been very painful.

Sheriff Miltonberger took to the penitentiary at Lincoln last night Virgil Root, who pleaded guilty to forgery, and the colored man Burns, who acknowledged that he had been guilty of daylight burglary.

Since the water of the Birdwood creek has been turned into the Surburban ditch there is plenty water for all the users; in fact the volume is really greater than needed. This scheme has resulted in saving a good thousand dollars worth of crops.

Mrs. Clara Hnnter desires to thank the friends and members of the K. O. T. M. for the kindness shown her during the illness and at the funeral of her husband, the late Willard M. Hunter. The services extended and sympathy expressed will never be forgotten.

Frank Johnson, who was over from Wellfleet yesterday, says corn in that section is in pretty bad shape and rain must come at once if the crop amounts to anything. The lack of hay and pasture is a serious problem in that section as well as elsewhere in the county.

O. H. Thoelecke and Frank McGovern leave today or tomorrow in the former's car for Saratoga, Wyo., and points in the North Park in Colorado, expecting to be absent about a month. The tonneau was removed from the car in order to make room for camp equipment, guns, ammunition, etc. They will fish for trout, hunt big game and have a trip of recreation that will be worth the while.

### Somewhat Disappointing.

Last week a grading outfit of five cars was shipped up the branch to Northport, and at once the report spread that the Union Pacific's line up the North Platte valley was to at once be extended west of Northport. But the report proved with foundation, for the grading outfit was taken overland to Sioux county where it will work on a reservoir for an irrigation ditch.

### Notice.

All parties knowing themselves indebted to me will please call at the McDonald State Bank where accounts have been left, and make settlement.

### Not Much Show for Water.

Supt. Wickstrom, of the North Platte ditch, returned yesterday from Scotts Bluffs, where he went to ascertain why the ditches in that section disregarded the instructions of the state board of irrigation and continued to take the water from the North Platte river. He found some of the ditches in that section running full, while others had more or less water in them. The state board has representatives on the ground, but they seem powerless, and nothing short of the state militia will prevent the water users from stealing the water. They make the boast that if arrested and fined \$200 they will still be ahead for without the water their crops would burn up, especially the sugar beets, of which there is a large acreage in that section.

The prospects for getting water in the North Platte ditch is therefore not very encouraging. Even if the western ditches are shut off it will take five or six days for the water to come down the river, and unless it rains it does not seem possible that the crops can survive that long.

### Seemed to Give Him a New Stomach.

"I suffered intensely after eating and no medicine or treatment I tried seemed to do any good," writes H. M. Young, Editor of The Sun, Lake View, Ohio. "The first few doses of Chamberlain's Stomach and Liver Tablets gave me surprising relief and the second bottle seemed to give me a new stomach and perfectly good health." For sale by all dealers.

### Strayed or Stolen

From the Frank Packa farm southeast of town about the middle of May, one white faced cow with calf, and one two year old red steer branded with fish on left side. Anyone knowing of their whereabouts please notify the above.
