

The North Platte Semi-Weekly Tribune.

TWENTY-SIXTH YEAR.

NORTH PLATTE, NEBRASKA, AUGUST 12, 1910.

NO 58

TO THE TELEPHONE PUBLIC.

There has been some contention by a few in regard to our mode of collecting phone rentals, and we feel that an explanation on our part will clear the matter up. The more we can hold down expenses the cheaper we can furnish you telephone service and by our mode of collections the subscriber gets the advantage of the discount in place of us paying this money to a collector for doing this part of the work. We are furnishing you herewith a record of the rates as furnished us by Clark Perkins, Secretary of the State Railway Commission, on July 28th. In all of these towns there are two telephone systems; all business houses are compelled to have both phones in order to reach all their patrons, while the residence users only have communication with the people on the one system. Our discount is not a penalty, but a discount from the regular rate filed and approved by the Nebraska Commission; though the supreme court of Washington, composed of Judges Morris, Rudkin, Chadwick and Gose, has recently held that a telephone company has the right to impose a penalty for default and delinquent payment.

We are giving, in the quotations following, the rate of the systems having the greatest number of subscribers in the towns mentioned:

Compare these rates and towns with the rates you are paying and you will be convinced that in all cases our rates are much cheaper, from 50c to \$1.00 per month. Why we are able to do this is by our business methods and you enjoying the cheaper rates, while our service is superior, as people generally from these towns will tell you.

We are doing all in our power to build up the system. What are you doing? Do you realize that the larger list of subscribers the larger service you get. You can now talk to 800 in town and over 200 in country, while formerly you could talk to 300 in town and country altogether. You also have the advantage of toll connections over our lines in all towns between North Platte and Julesburg, from Julesburg to all points in Colorado, including Denver, and points in New Mexico, also Wyoming. The North Platte Telephone Company is as much a home institution as we have been able to make it. We have encouraged local capital during the past year and at the present time the controlling interest in stock is held by residents of North Platte. We still have a limited amount of stock to sell which we will be pleased to have home people take. This is not a get rich quick scheme but a good sound investment. Our books are kept under the instruction of the State Railway Commission and are open to the investigation of stockholders at any time.

Give us your order for a phone now so it may be included in the new directory soon to be issued.

Respectfully yours,

NORTH PLATTE TELEPHONE COMPANY,

EBEN D. WARNER, MANAGER

The failure to properly examine the eyes of our children before admitting them to the schools constitutes one of the most shameful forms of negligence of which this materialistic age is guilty. Countless boys and girls have their nervous systems depleted, their vitality sapped, the development of their mental faculties retarded and their eyes permanently harmed each year for lack of this simple and rational precaution. Elmer Bosworth, who came here from Kansas some time ago and accepted work with the bridge gang of the Union Pacific, was seriously injured while at work at the new stock yards Tuesday forenoon.
