Gossard Corsets Now \$3.50

You need no longer consider Gossard grace and symmetry as an unattainable luxury—you can hereafter afford it for yourself.

The \$3.50 Gossard illustrated above is made to excel every other corset at anything near the price—in style, workmanship and quality. It embodies all the important essentials of Gossard construction—the graceful Gossard lines—the popular front-lace feature—the celebrated non-rustable Electrobone—the dainty Gossard workmanship—all of which have only been obtainable heretofore at prices ranging from \$5.00 to \$25.00.

THE GOSSARD CORSETS They Lace in Front

—give the true line of beauty to the figure, following the perfect curve of the back—permit a suppleness entirely lacking in back-laced corsets properly support the spine and abdomen—insure perfect and permanent ease—secure the correct new figure by suppressing superfluous fullness—contribute wonderfully to the elegance of the new gown—and are far easier to put on and take off than the back-laced corsets. Gossard Corsets have revolutionized erroneous methods of corseting. As a result, better health, correct poise of body, and more solid comfort have come to the women who wear them.
