Are You a Live One?

Then Dress for the Part.

It doesn't make any difference what your line is, whether you are the head of the house or still working your way up, there is no reason why you can not improve your prospects, your self respect and your intentions, and consequently your actual daily work, if you carry a little energy and good judgment with you when you go to buy your clothes.

Pride, birth, breeding, education and natural manner are all good, but you can help them a good lot if you will dress as well as your purse will permit.
