In favor of Miss Burt, who left for Lincoln Saturday night, a number of young people, high school students and others were entertained in a very enjoyable manner at the C. F. Idding's home Saturday evening. The time was spent in various games and contests, interspersed with musical numbers and passed very pleasantly. Delightful refreshments were served at the close of the evening.

A buffet luncheon was served during the evening.

Henry Fulk, living near Sutherland, was in town Saturday exhibiting two ears of corn about the size of a stove pipe. This corn, which will average sixty or seventy bushels to the acre, was grown on a feed lot which was plowed up four years ago and planted to sugar beets. The yield of beets that year was ninety dollars per acre; the next year beets were planted and the revenue was seventy-two dollars per acre. Last year oats was sowed and forty-five bushels per acre produced; this year the corn will run sixty or more bushels. The average crop value of the land per year for the four years has been a little over \$50 per acre per year.

Five plain drunks were arraigned before Police Judge Elder yesterday morning after having spent Sunday in jail. Four were men employed on Union Pacific construction work, and were assessed one dollar fine, the costs and the jail fees. Bert Renslow, an old offender, was turned loose. In the past he has been fined and given jail sentences, but these have not had a moralizing effect upon him, and Judge Elder is in a quandary just what to do with him when he is periodically brought into the police court.

Many prominent business men as well as officials of fraternal orders of this city have forwarded letters to Dean Beecher, of Omaha, asking that his ordination as bishop of the Kearney district take place in this city. While North Platte was not the first parish over which Dean Beecher presided as rector, he was new in the ministry when he came here, and it can be said that while here he practically laid the foundation for the worth and work that has advanced him to the bishopric. The Tribune trusts that Dean Beecher will acquiesce to the request which his many friends in North Platte have made.

Passenger Service on the Branch.

The last issue of the Oshkosh Herald contained this item: Vice-President and General Manager A. L. Mohler, of the Union Pacific, has advised Agent Frank Mayott of this place that an exclusive passenger service will be put on the last of this month between North Platte and Northport, with a daily passenger train each way besides a freight. The railroad officials made this decision after their recent tour of inspection over this line and learned that the mixed train was unable to satisfactorily handle the large amount of traffic, both passenger and freight. This is another big step in the progress and upbuilding of this portion of the North Platte Valley and Western Nebraska. We are steadily and surely advancing along the great road of development.

Sues City for \$6,616.14.

F. L. Slocum, receiver of the North Platte Waterworks Co. has begun suit in the United States circuit court against the City of North Platte for the collection of \$6,616.14 alleged to be due the company for hydrant rental and for interest on deferred payments. This sum has been accumulating since July, 1898, and the reason that it has accumulated is because the revenue derived from the seven mill levy—with the exception of the years 1906, 1907, 1908 and 1909—has been insufficient to meet the hydrant rental of \$3,165 per year.

Whether the water company is entitled to the sum sued for, is of course for the court to decide. Some claim that so long as the city paid all the money derived from the seven mill levy—which is the statutory limit—the company cannot come back on the city for any yearly deficit that may exist.

Outclass Sterling.

In the game of football Friday on the local field between the high school teams of Sterling and North Platte, the latter outclassed the former and won by a score of eleven to nothing. The game was fairly well attended, especially by the high school students, who by their class yells and other acts of enthusiasm helped the winners on to victory. The game was a clean cut one throughout and a number of sensational plays were made, Votaw, Lincoln, and Norris of the home team earning good words for their excellent work. In the last quarter the North Platte's were within ten yards of the goal line when the time expired. Only once did Sterling get the ball dangerously close to the goal line.

Considering that it was the first game of the season, the North Platte team showed up strong, and in the forth coming games stronger work may be expected.
