J. L. Lewis, of Maxwell, one of the heaviest stockholders in the Hershey alfalfa mill that burned last week, informed this writer Saturday that the mill will undoubtedly be rebuilt. He is inclined to favor moving it to North Platte and operating an artificial ice plant in connection with the manufacture of alfalfa meal.

## About Our Repairing

THERE is something nice about it when we put a new sole on a pair of uppers. We do it over a last, very near the shape the shoe was originally, which means that the shoe is going to look almost as good as new, so it will take a mighty keen observer to tell whether it has been repaired or not. Remember two things, that we are shoe repairers not cobblers and that good shoe repairing costs no more than poor.

The steel interests will now draw a deep breath of relief and satisfaction. For weeks they have been waiting for big railroad companies to put in their orders for rails. First the delay was attributed to pendency of the election. Then it was uncertainty regarding the action of the Interstate Commerce commission in the matter of rate advances. At last the Pennsylvania railroad has acted. It has placed orders for 150,000 tons of rails, a larger amount than has been bought in any year since 1906.—Philadelphia Record.

When your feet are wet and cold, and your body chilled through and through from exposure, take a big dose of Chamberlain's Cough Remedy, bathe your feet in hot water before going to bed, and you are always certain to ward off severe cold. For sale by all dealers.

## A BIG FAT TURKEY

is one of the requisites for a Christmas dinner, but for the male members of your dinner party a good cigar is also necessary. We make cigars of acknowledged merit, they have that flavor that all smokers like. The goodness is found in our five cent cigar as in the ten cent, but of course there is more of it in the latter. And by the way, why not give your husband, father or gentleman friend a box of our cigars as a Christmas present?

J. F. SCHMALZRIED.

Reading an item in a local paper to the effect that a team of horses had been stolen at Aurora and traced to Grand Island, it occurred to Charles Dodson that the horses housed in his barn, which barn had but a day or two ago been rented to a stranger, might be the missing team. He investigated, found appearances to indicate that the horses had had no attention that day, and decided to inform the police department of the incident. Sheriff Young of Hamilton county was in turn notified and identified the horses as those stolen. It developed immediately, also, that the chief of police already had the thief in the city jail. Charles Rossmann, the alleged thief, is said to have admitted his part in the theft and the officers are now on the quest for the team of mules stolen from that county this week.

## You economical women who buy Corsets for a dollar or two

Don't you know that's false economy? Let us tell you about a REAL bargain.

When front laced corsets were first placed on the market at \$25 they were purchased only by the millionaire class. Later when the \$15 corset made its appearance women sought them because, even though considered a luxury, they were recognized as the one corset that combined style and healthful comfort. Then when the \$12, \$8 and \$5 Gossard was offered many women eagerly accepted the opportunity to secure the corset that until then had seemed beyond their reach.

THE Gossard CORSETS  
"The Best in Front"

NOW, when you can get true Gossard principals of corsetry, with the distinctive features of the Gossard front lacing, the habit back and the hygienic comfort combined, and the same beautiful lines for which formerly \$25 was cheerfully paid—for only \$3.50—doesn't it seem absurd to even think of another make?

Suppose you HAVE felt that \$2 was your limit to pay for a corset. Be honest. Has it been satisfactory? Has it kept the lines that looked good to you when you bought it? Has it worn well? Has it been comfortable? Was it fitted by an expert corset fitter whose experience proved of valued aid in knowing the particular model for your style of figure? Haven't you sometimes wondered why some women had such perfect poise, could stoop and exercise without having a steel break and dig into them, why their clothes fitted so well, especially why their backs looked so good? Didn't it ever dawn on you that it is the Gossard that does all this and more?

A Gossard at \$3.50 is true economy, but it's not cheap in the true sense of the word, for there is nothing tawdry about it. The materials are the best there are on the market for the money.

The model illustrated conforms to the present styles and the workmanship shows the Gossard precision of details and accuracy of boning. Boned with Electric boning, which is as strong as steel, yet more pliable than whalebone.

Here is an opportunity waiting for you. Be fitted by one of our experienced corsetiers who is acquainted with every detail of corset fitting from a fashionable and hygienic standpoint. The same courteous attention given to the \$3.50 fitting as to a \$25 one. Other models from \$5 to \$25. Come and see for yourself.

To correct exaggerated reports, The Tribune authoritatively states that there are but four cases of small pox in town. Two of these are very light. The man taken with the disease at the boarding house in the rear of McDonnell & Graves, was promptly removed to the pest house on the Mrs. Pulver premises. The other three patients are quarantined at their homes.
