SUBSCRIPTION RATES.

Entered at North Platte, Nebraska, Postoffice as Second Class Matter

FRIDAY, DECEMBER 9, 1910.

Our Taxes.

Taxpayers are prone to complain of their tax assessment, in fact they kick whether the levy is high or low, and only one out of a hundred will stop to only one out of a bundred will stop to consider the benefit he receives in return for the taxes he pays. Take for exam-ple, a North Platte resident, such as this writer. In payment of his personal tax for 1910 he found that the total state and county tax was \$14.56, the total city tax \$17.20, the total school tax \$22.80 and the poll tax \$2.00. It will be observed that the highest item is that for schools, and practically in is that for schools, and practically in every town and precinct in Lincoln made county it will be found that this item leads the others. In North Platte it costs \$20 per pupil per year to educate our children, so that the man who has Th three children in school can figure that the cost to the school district for educating his three children is \$60 per year. How many of us pay \$60 per year taxes for the support of the schools? Isnt it evident the more wealthy men or the men without children are helping to educate the children of nine-tenths of the tax-payers? Then why complain of your school tax, you people who have children in school?

The next highest item in the list is city tax. In return for this we have fire protection, police protection, sewer system, electrically lighted streets, good streets and crosswalks, all of which are benefit or convenience or both. Would you do without these for the sum they cost you? We think not; if we

did not have these conveniences you would holler your head off. The combined county and state tax is just about one-fourth of the total paid by a North Platte citizen. This tax maintains our state institutions, our courts, our state and county officials, keeps up highways in road districts, maintains our bridges, meets election expenses, takes care of our poor who expenses, takes care of our poor who need aid, and defrays other expenses, all of which are absolutely necessary in o der that we may enjoy the benefits of an advanced civilization. And when you think of these things, do you really think you have a kick a-coming? Taxes in Liveda senter were here a shedo in Lincoln county may be a shade higher than in some other counties, but the bigness of the county makes ex-penses high. We have forty-three pre-cincts-more than twice the number in the average county in the east part of the state. This makes our elections expensive; it costs a big sum to make the assessment; the county is so large that the mileage charge of a juror or a wi*ness attending court is often greater than his court fees; we have twice the number of miles of road as has the average county and these must be main-tained; we have eight or ten bridges across the Platte rivers that must be presiden kept in repair; in fact our county is so big and so comparatively sparsely set-

Gist of President's Message.

President Taft submitted his mesage to congress Tuesday. The prin-Lipal features are: He declares it is time to stop legis-lating with reference to regulation of corporations and to witness the ef-

fect of a vigorious execution of the laws already on the statute books. The exact limitation upon business meth-ods imposed by law will doubtless be made clearer by pending decisions of the supreme court.

Just at this time, the president says,

Just at this time, the president says, he believes the activities of the gov-ernment, in addition to enforcement of the laws should be directed toward economy of adminstration, the enlarge-ment of opportunities for foreign trade, the building up of home industry and the strengthing of confidence of capital in domestic investment. Mr. Taft recommends strongly some form of ship subsidy to increase Amer-

form of ship subsidy to increase American shipping, especially to South America.

America. The tariff board is not ready to sub-mit a report of any of the schedules of the Payne law, and Mr. Taft says he he will not recommend any tariff leg-

islation until the new congress con-venes in December 1911. He urges that the tariff board be made permanent and that all future re-

visions be made schedule by schedule. He vigoriously opposes another general

The Panama canal should be fortified. An appropriation of \$19,000,000 is rec-ommended for this purpose.

There must be no more "pork barrel" methods in river and harbor and public building bills. The latter should be based upon the report of a commission of experts. In the past congress has appropriated too much for buildings not needed and not enough for buildings badly needed.

commendation for anti-injunction and federal incorporation laws are renewee

It is proposed that second class mail rates shall be readjusted so as to charge magazines a much higher rate on their advertising tections.

Strong representations are made for the establishment of a new banking and currency system. Two new battleship and several aux-

liary vessels are urged for the navy. The president recommends that cosl hosphate and oil lands and water power sites be disposed of in the future by leasing. Estimates for the government ex-

penditures during the next fiscal year have been cut to \$630,013.12, which is \$52,964,887.36 less than the actual ap-propriations for the current year. The estimated receipts for the next fiscal year are \$680,000,000.

The president urges the extension of the civil service principle to the diplo-matic and consular corps and the acquisition by the government of resi-dences and of offices for its diplomatic officers.

There should be more officers for the army. The engineering corpse should

be increased by sixty. The fortifications at Corregidor island, Manila bay and at Pearl harbor, Ha-waii, should be hurried to early com-

In regard to the Panama canal the president says: "The progress of the work is most satisfactory. It will be completed well within the time set, January 1, 1915, and within the estim-

Statements are being sent those who are indebted to The Tribnne. Those living out of town were first billed, and they are responding liberally. City sub-scribers will be reached in a week or so.

Supt. J. E. Delzell, of the Lexington schools, an educator well known in North Platte and Lincoln county, has been appointed inspector of graded schools in the state. We regard this appointment as a most excellent one, for Mr. Delzell is certainly a live wire in educational matters.

RUPTURE NOTED

Russia, will be at the Pacific

Hotel, North Platte.

P. H. Seeley of Chicago and Phila-delphia, the noted truss expert, will be at the Pacific hotel and will remain in North Platte on Friday and Saturday only, December 16th and 17th. Mr. Seeley says: "The Spermatic Shield Truss as now used and approved by the United States government will not only retain any case of rupture per-fectly, affording immediate relief, but closes the cpening in 10 days on the average case, and costing only propor-tionate with common trusses." This instrument received the only award in England and in Spain, producing re sults without surgery or harmful in-jections. Mr. Seeley has documentary references from the United States government, Washington, D. C., for your inspection. All charity cases without charge, or if any interested call he will be glad to show the truss without charge or fit them if desired. Anyone

EXPERT HERE. Seeley, who Fitted the Czar of ness is found in our five cent cigar as in the ten center, but of course there is more of it in the latter. And by the way, why not give your husband, father or gentleman friend a box of our cigars as a Christmas present? J. F. SCHMALZRIED

our selves that our taxes are not higher.

History of Red Cross Seals.

The Red Cross Christmas seals that are now on sale at many of the stores in North Platte date back in their or-igin to "charity stamps" first used for the soldiers' relief funds in Boston in 1862, during the Civil War. After the war, this method of raising money was prosecuted. discontinued in this country for a generation, although it found vogue in Portugal, Switzerland Australia, France, Spain, Denmark, Norway, Russia Sweden and other European countries. There are now several hundred differ-ent types of charity stamps used in all parts of the world. Stamps or seals were first used to

get money for the anti-tuberculosis crusade in Norway and Sweden in 1904. After being used in these countries for three years, as a direct result of the interest of Jacob Riis in this movement, the Deleware Anti-Tuberculosis As-sociation, headed by Miss Emily P. Bissell, and the Red Cross Society of Deleware combined in issuing a Tuber-culosis Stamp. So successful was this campaign that nearly \$3,000 was realized, and the next year, in 1908, the American Red Cross was induced to insue a National Red Cross Tuberculoais Stamp. From this sale \$125,000 was realized, that amount being almost doubled in 1909. This year for the first time the sale statement time, the sale is organized on a compre-hensive basis, 'taking in all parts of the United States. A million for tub-berculosis work is confidently expected.

Crop Value.

Nothing short of omniscience can grasp the value of the farm pro-ducts of this year, is the statement of the secretary of agriculture in his an-nual report of 1910 published Wednes-day. At no time before in the world's day. At no time before in the world's history has a country produced farm products within one year with a value reaching \$8,926,000,000, which is the value of the agricultural products of this country for 1910. The value of farm products from 1899 to the present year has been progressive without interruption. If the value of products in 1899 a placed at 100, the value of broducts in 1899 is placed at 100, the value of this year is 189, or almost double the value eleven years ago. "During this period of unexampled agricultural production, a period of twelve years, during which the farmers of this country have standily advanced in production have steadily advanced in prosperty and and wealth and in economic in indepen-dence, an intelligence, and a knowledge of agriculture, the total value of farm products io \$79,000,000,000."

Ballinger Vindicated. The Ballinger-Pinchott investigating committee, after eleven months' work, committee, after eleven months' work, made its final report to both houses of congress Wednesday. In the opinion of seven republican members, a majority of the committee, Secretary Ballinger "honestly and faithfully performed the duties of his high office with an eye single to the public interest." In the opinion of the four democrats Mr. Ballinger "has not been true to the trust reposed in him as secretary of the interior and should be requested by the proper authorities to resign."

mated cost of \$375,000,000. The slides in Culebra cut offer no great reason for delay.

The stupendous volume of agricultural products, amounting to \$8,926,000,000 this year, indicates a good prospect for business throughout the country. The present census promises to be the best ever taken, but is not perfect. The census padders are to be vigorously prosecuted

A bureau of health should be estab-lished.

Postal savings banks will be estab-lished in a number of cities Japuary 1. A parcels post on rural delivery routes is recommended. Postmaster General Hitchcock is given high praise for put-ting the post office in the present self-sustaining basis. The civil service to include all classes of postmasters, thus taking these officials entirely out of poli-tios is upcode

tics, is urged. Some provision should be made for retiring superannuated government clerks.

The only amendments suggested in interstate commerce law are an appropriation to enable the interstate commerce commission to ascertain the valuation of railroads and fixing the responsibili ties of public carriers in the issuance of bills of lading.

The report of the state railroad commission confirms the general under-standing that no radical legislation is needed to carry on the policy of rail-road regulation in Nebraska. Nine patches on the existing law, calculated to sustain the spirit of the existing law where defects have been found, are asked for. Repeal of a joker in the anti-pass act is requested. mation address,

are asked for. Repeat of a joker in the anti-pass act is requested. Power to require equal facilities for all in other lines of shipping than grain, for instance stone quarries, is another reasonable request. Authority to al-low free shipmen: of the household goods of railroad employes moved from place to place, as free personal trans-portation is now allowed is also asked portation is now allowed, is also asked for. Other legislation suggested is simed to make effective powers already granted in theory to the commission. While the changes asked for are in the line of more strict practical regulation, they cannot be regarded as raising any new issue.-Lincoln Journal.

From his comfortable ranch home in balmy Texas, Mr. Bryan calls to the democratic congressmen to remember that he expects them to revise those house rules and place the appointment of committees in the hands of the house, taking it away from the speaker. Then watch them obey their master.-

At the meeting of the city council Tuesday evening a motion to give part of the city lot on Front St. as a site for the proposed Carnegie library was lost by a vote of three to two. The councilmen voting against the measure do not consider the site a suitable one for the library, a view that will be up-held by many citizens.

Legal Notice. Julius L. DeRenter, will take notice that on the 4th day of August, 1910, Ella A. DeRenter, plain-tiff herein, filed her petition in the District Court of Lincoln County, Ne-braska, against said defendant, the object and prayer of which is to obtain a divorce from said defendant upon the grounds of extreme crueity practiced a divorce from said defendant upon the grounds of extreme cruelty practiced by defendant against plaintiff, on Sep-tember 19, 1908, and his descrition of the plaintiff, and failure to support and care for said plaintiff during the time when plantiff was in need of medical attention. And for the restoration of the plaintiff's name to that of her maiden name, Ella A. Hume, and for such other relief as equity may afford. You are required to answer said pe-tition on or before the 26th day of De-cember 1910 cember, 1910.

Dated the 14th day of November, 1910.

ELLA A. DERENTER, Plaintiff.
