

WORK WORRY!

You delude yourself trying to make yourself believe your headaches are only a temporary ailment when you know not what they may lead to.

You are not putting your right energy in your work, and are not accomplishing what you should.

You may be criticised by your employer for not attending to your work properly, whereas you are trying to do the best you can, but you are not feeling just right. Nine out of ten cases such as yours come from the eyes—why may not yours be one of the nine? Let our graduate optician examine them free of charge, and if it's not your eyes he will truthfully tell you, and you can seek relief elsewhere. Don't delay attending to yourself, you will accomplish so much more.

The proposed change of schedule whereby a night train is to be run out of Omaha, has received two raps, one from the state railway commission, the other from people living between Omaha and Valley. That is the people between the two points object to having train No. 23 set back from 5:30 p. m. to 11:45 p. m. Just what the result will be cannot be stated at this time. North Platte, and in fact all towns west of Grand Island insist that they should have a night train out of Omaha.

The Omaha Bee says that railroads are accounted as very hard-hearted, but the Union Pacific has received recognition for one good deed. Tuesday a report was sent from Carr, Colo., to Nunn, Colo., that there was an aged man nearly dying for the lack of a doctor. Arrangements were made for the Union Pacific fast mail 105 to stop at Nunn and take on a doctor for Carr. The train stopped twelve minutes while an attempt was made to find a doctor, whereas it was under orders not to stop at all. Finding no doctor this train passed on its way and train 103, which is also a through train, was stopped twice, taking on a physician at Nunn and leaving him at Carr.
