The machine climbed the steep hill south of the experimental station on low gear without a stutter, and the hill further south on high gear with ease. This 1911 Buick is a very easy riding car.

The continued dry weather is causing Lincoln county farmers much concern; in fact they are becoming a little despondent over the outlook. Last year was the driest year this section has ever had, the precipitation amounting to but 10.7 inches, while the average for thirty-six years past has been 18.63 inches. It hardly seems likely, however, that this year will prove as dry as last.

Our repair department is one of the best equipped in Nebraska and each watch that goes through our hands is given the most careful attention. DIXON, The Jeweler.

Fire Department Favors City Hall.
At a general meeting of the Fire Department held at the Court House March 16th, to consider the proposition of voting \$150,000.00 in City Bonds to build a City hall and home for the Fire Department, the undersigned committee were appointed to voice the sentiments of the Fire Department.

The Fire Department are a unit for the bonds and believe that they should receive the support of every public spirited citizen.

There is not a town in the State half the size of North Platte that has not a respectable City Hall and Home for its Fire Department.

Such a building as can be built with the proceeds of the proposed bonds will afford plenty of room for the City Offices and Fire Department for years to come.

Heretofore the department has been compelled to put up with a few old shacks upon rented ground that are a disgrace to the city. It is impossible under such conditions to give the City that prompt service and fire protection that the interests of the City demand.

Besides, it is time that the city offices were gathered into one place where the records could be found and where they could be preserved in suitable fire proof vaults.

The Fire Department earnestly calls upon the good citizens of the City to join with it in support of the City Hall Bond proposition.

Booming Cody for Senator.
Word comes from Tucson, Ariz., that Col. W. F. Cody has established his residence there and that the people of that city propose to boom him as a candidate for United States senator when that territory is admitted as a state. It would certainly be fitting that Colonel Cody, the typical westerner, round out his career by being the first senator from a new state. If this writer lived in Arizona he certainly would push the Colonel's candidacy.

Nelson Again in Trouble.
C. S. Nelson, who figured in shady deals in regard to alfalfa meal mills at Hershey and York, and narrowly escaped trouble at Scotts Bluffs is, according to a letter received in town, in jail in Missouri. The nature of the charge which resulted in his imprisonment was not stated. Nelson holds a membership card in a local fraternal organization, and by using it as an identification succeeded in getting cashed a bogus Kansas City draft for \$15.00, this latter transaction coming to light in a letter from a Missouri lodge to the local lodge.

P. E. O. Entertain Husbands.
Members of Ak Chapter P. E. O. were hostesses at a seven o'clock dinner at the Beeler residence Friday evening at which the B. I. L's, or husbands, were the guests. Occurring on St. Patrick's day, the home decorations were along that line and included shamrocks, clay pipes, a blarney stone and miniature flags, the green alternating with the chapter colors. The table decorations were also suggestive of the patron saint. Covers were laid for thirty. Following the dinner toasts were responded to by Judge Grimes and Rev. Williams, and contests were introduced as entertaining features. The day was the thirtieth wedding anniversary of Mr. and Mrs. Butler Buchanan and they were remembered with a cut glass basket and fern.

Chickens Wanted.
Chickens wanted at Schrieber's meat market. Will pay nine cents a pound for all kinds.

Dastardly Work.
The meanest, vilest and most dastardly piece of work that has been committed in this section in years was enacted at the Platte Valley school house west of this city on Tuesday night of last week, when the building was broken into and about two hundred dollars worth of property destroyed. A new atlas costing \$125 was soaked in ink, charts on the walls similarly treated, desks and windowlights were broken, and every piece of property that could be mutilated suffered the ravages of the degenerates. Not content with this, vomitings and excrements were left on the floor.

The matter was reported to Sheriff Miltonberger, who found that Jim Stingley, of this city, had secured a team at Bowen's livery barn Tuesday evening and returned it about two o'clock the next morning. He also found that Stingley and Paul Dupont, the latter also of this city, on the same evening had purchased a dozen bottles of beer and two quarts of whisky at Dan's saloon. Further investigation showed that the hoof marks of the horses tied at the school house corresponded with the hoofs of the Bowen team.

Acting upon this evidence the sheriff arrested Stingley Friday evening, but Dupont learning of his probable arrest skipped town. Lowell was sent out after him, overtaking him at Aurora and returned Sunday night. With the two men in this nefarious work is said to have been two girls.

The two men were arraigned in the county court yesterday morning and pleading guilty were fined fifty dollars each and costs.

Hand Tailored Suits.
Have you decided what color your Spring Clothes are to be? Are you going to wear a brown, gray, blue or tan? Are you going to wear striped or plain? Are you going to wear Scotch or fancy chevvy or worsted? It's immaterial to us what material you prefer, because our stock is all-covering.

There is something which is of very material interest to us, though, and it is, are you going to purchase your new suit from us or someone else? If you see our clothes, we know of whom you'll buy. Why not give us a chance. Our time is yours.

Logan County Women Balk.
A special from Gandy appearing in yesterday's Bee said:
Encouraged by the recent decision of Judge Otto of Brule, who defined the rights of husband and wife relative to work on the farm, Nebraska women are declaring themselves in no uncertain manner. All through this section of the state the women have organized clubs and determined that henceforth farm work shall be done by the men, else it will go undone.

Not that in the past Nebraska women have done more outside work than the women of other states, but since the Otto decision they say that they are going to look after the household duties, and if the husbands cannot do the farm work alone, they will have to hire men.

Within sixteen miles of this town the women, through an organizer, have ten societies with an aggregate membership of 280. The women sign but one pledge and that is that they will not milk cows, feed cattle, work in the hay and corn fields. They lay the law down to their husbands, quoting from the decision of Judge Otto.

Lots all filled and curbing in. This property is situated right in the business section of the north side and the lots alone will be worth more than the price asked for the improved property in a short time.

Mr. Lamb has in view another business proposition that he wishes to use the money in ght away, and has placed the very low price of \$4,700.00 on this property. See us at once if interested.
