

IT TAKES THE RING

TO KEEP THE GIRL

The custom of giving an engagement ring at betrothal time comes down to us from traditional times, and has endured because of its pretty and symbolic meaning. It still has a beautiful significance, and whether you wish a diamond or some less costly gem, you'll find our store the proper place to make your selection. This is the one time of all that you must be sure you are getting something reliable, and when it comes from us you can well be proud of it.

Rev. J. C. Irwin, formerly of this city, but now living at Hamilton, Mont., is in town for a few days visit with friends, while enroute home from Wood River where he was called to conduct the funeral of a former parishioner. Rev. Irwin is well pleased with his home in Montana, and is very enthusiastic over that section as an apple producing section. He is pastor of a church at Hamilton, which is a town of about 6,000 people, and also owns a young orchard that will be in fine bearing condition in a few years.

THE GREAT NEW SOCK

INTERWOVEN

The unusual lasting qualities of Interwoven half-hose do not depend upon the pull of a mere "catchy name," nor yet upon the strength of a paper guarantee, but absolutely upon the intrinsic merit of the wonderful wear-resisting

which make Interwoven Socks

"Strong Where Others are Weak"

This new manufacturing discovery gives us a thin, light-weight, silk-lustre sock, equipped with a new wear-proof fabric at the vital points, which is without an equal for wear. And all for 25c the pair. Sold in North Platte by

Morgan Bound Over.
Bert Morgan, colored, of Medicine precinct, had a preliminary hearing before Judge Grant the latter part of last week on the charge of horse stealing and was bound over to the district court in the sum of \$400. He furnished bond through a security company, turning over personal property as collateral security for the bond. He was then released from custody.

Marriage Licenses Galore.
County Judge Grant issued the following marriage licenses yesterday, which is certainly a good showing for one day:
Oscar Oman and Nellie R. Clement, both of Farnam.
Leo R. Sellers and Pearl L. Lawrence, both of Wellfleet.
Geo. Schich of Curtis and Edna E. Dempecy of Moorefield.
Albert Taylor and Etta Fisher, both of Maxwell.

Getting Ready for Work.
Last week's issue of the Bridgeport Blade contained this article:
Three parties of the Union Pacific surveyors arrived in Bridgeport yesterday evening and are awaiting the coming of supervising Engineer Stimson, who is due here tomorrow, but it is just possible he may not arrive until the coming Wednesday.

It is understood the first work to be undertaken is the retracing of the former surveys for the guidance of the contractors, and it is understood Supervising Engineer Stimson will open offices in the First National Bank building immediately upon his arrival.

One contracting firm already has its tents pitched west of town and a considerable portion of its equipment is on the ground awaiting the order to proceed.

The News-Blade is willing to risk its reputation as a railroad prognosticator on the prediction that the Burlington's Bridgeport-Kearney line will now take its place on the railroad map of Nebraska.

For Trade.

Western Rye Grass.

George E. Douglas called at The Herald office last Saturday with a bunch of western rye grass, of which he has about seven acres on his place southeast of Alliance. As many of our readers are aware, he is a great hand to experiment with crops, his farm for a number of years being a sort of private agricultural experiment station. He says he has experimented with twenty or more different kinds of grasses, and finds that the western rye grass is away ahead of anything else he has ever tried for this country. It is a splendid grass either for grazing or hay. Two crops of hay can be cut any ordinary year, the first crop yielding about a ton and one-half to the acre and the second crop a ton. It keeps green all summer, even in the dry years.

The sample brought to this office was a bunch pulled up by the roots, the top growth having been made after the hay was cut last year. It has the appearance of being quite nutritious, not being wiry like some drouth-resisting grasses. Mr. Douglas will sow fifteen acres more of this grass this year, and intends to add to his acreage of it year by year until he has a hundred acres or more. We are pleased to learn that a number of other Box Butte county farmers will begin planting it this year.—The Alliance Herald.

Why Is It

Our business on UNION FLOUR is increasing every month? There's a reason for it. It is because every sack is made of the choicest selections of wheat by expert methods. We do not grind this flour ourselves but it is ground for us under special contract that it must always grade right up to the mark. Try a sack. If not satisfied we will take it back. Price of 48-pound sack \$1.40.
