## Who's Your Baker?

When bread was called the "staff of life" the delicious crackers, cakes and business of today were unknown. A baker in those days meant a man who baked bread. A baker nowadays means more—it means an artist who tickles your palate with those flakey crackers and other tit-bits that give you an added appetite for food.

"Who's your baker," means much. It means better health, a healthy stomach and happy days. If you study the matter as we study it, this is your bakery—for we know your needs. We already supply many of your neighbors. Try us next time.

### Coming May 5th.

A rare treat is in store for the people of North Platte, the occasion being the appearance on Friday night May 5th, of the greatest of all Jubilee companies, the Williams Co. So popular is this company with its eight years of brilliant successes in the largest cities of the U. S. and Canada as well Europe, that the entire time has for many months been engaged on the leading Chautauquas, with offers for at least 100 additional Chautauqua engagements which had to be declined on account of previous engagements.

The range of music is from the simple negro boat and cabin songs to grand opera, solos, duets and quartets of both ladies and gentlemen's voices as well as chorus and glees.

One of the most remarkable bass voices in the world is that possessed by J. S. Crabbe. Another that of the prima dona which easily soars to high C with a range far beyond that and as clear as a mocking bird's. The high tenor, G. L. Johnson, shows so well in "Miserere," possesses a Caruso like range and is without doubt the strongest, clearest toned and sweetest tenor of the race.

The baritone and mezzo-soprano harmonize perfectly with the other parts and are best in the quartets and ensemble.

Another flute like soprano as well as second tenor are models of technique and schooling.

While easily recognized and thoroughly appreciated by all whether musically inclined or not, is the well known deep rich contralto by Mrs. Williams which has won for her many admirers from musical critics.

The entire company of eight represent almost as many Universities and Conservatories. Endorsed by the highest officials in church and state they are today the strongest and most perfect in the presentation of the old time honored music and popular selection of the race.

Regardless of whatever Jubilee companies you have heard, hear these then pass judgment, for we know that as many as seven return dates have been booked for this company the popularity of the company each time increasing.

### "The Port of Missing Men."

"The Port of Missing Men," by Meredith Nicholson, which comes to the Keith Friday evening is aptly styled a delightful romance. It involves Austrian diplomatic circles, Washington political life, a quaint out-of-the-way summer resort among the Virginia Mountains; a Senator, his soldier son, and his charming daughter, two Austrian scoundrels and a stalwart young man with a sound head and a tender heart—whose connection with the Austrian succession carries him into perilous paths, and bids fair to lose him the hand of the Senator's daughter. A set of conspirators undertake assassination as a means of placing a most undesirable person upon the throne of Austria. They would have been successful if a ranchman from the Dakotas had not interfered to keep Austria from overthrow, and he does it single handed. Just who and what he is the auditor has to guess until the final curtain, when all comes out nicely and quickly.

### Quality Counts

and is the only thing that determines whether an article is cheap or dear. Our policy is always to give you quality first, last and all the time. Second, to know where to buy the goods that will give you satisfaction at a price that will let us sell them to you as low or lower than you buy them elsewhere at home or by sending away for them. We have never had to offer fake inducements to get business. Goods bought and taken home from us that you do not want for any reason will be taken back and your money refunded. Is this worth anything to you? We believe it is and that the steady progress this firm has made in the business world of our city proves it.
