

**WELCOMED BY MEN WHO SMOKE**

Particular men who smoke realize how offensive to people of refinement is a strong tobacco breath, and how objectionable to themselves is that "dark brown taste" in the mouth after smoking.

Paxtine Toleit Antiseptic is worth its weight in gold for this purpose alone. Just a little in a glass of water—rinse the mouth and brush the teeth. The mouth is thoroughly deodorized, the breath becomes pure and sweet and a delightful sense of mouth cleanliness replaces that dark brown tobacco taste.

Paxtine is far superior to liquid antiseptics and Peroxide for all toilet and hygienic uses and may be obtained at any drug store 25 and 50c a box or sent postpaid upon receipt of price by The Paxton Toleit Co., Boston, Mass. Send for a free sample.

**TRUE COURAGE.**

Natalie—Yes, he was paying attention to her quite a long time.

Estelle—Perhaps he hadn't the courage to propose.

Natalie—Oh, I don't know. Perhaps he had the courage not to propose.

**CRIMINAL NEGLIGENCE OF SKIN AND HAIR**

Cuticura Soap and Ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little that it is almost criminal not to use them. Think of the suffering entailed by neglected skin troubles—mental because of disfigurement—physical because of pain. Think of the pleasure of a clear skin, soft white hands and good hair. These blessings are often only a matter of a little thoughtful, timely care, viz.:—warm baths with Cuticura Soap, assisted when necessary by gentle anointings with Cuticura Ointment. The latest Cuticura book, an invaluable guide to skin and hair health, will be mailed free, on application to the Potter Drug & Chem. Corp., Boston, Mass.

**Head on Crooked.**

Little Paul had always been taught by his mother that God had made him and that he ought to be thankful that he had been made so perfect; eyes, ears, feet, hands and all complete. His mother had bought a new cook stove and Paulie was examining it. He lifted the reservoir lid and looked in. There was his picture, as natural as life, in the water, but he was sorely troubled, while looking at it. When asked, by his mother, what the trouble was, he said:

"Dod might o' made me persect, but be put my head on trooked."

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden, behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

**New Fishing Industry.**

Albion fishing in Nova Scotia waters has become interesting, but for financial reasons. These fish frequently weigh over 500 pounds and are known as horse mackerel. A number were shipped to Boston last season. The average price there is three and one-half cents per pound. Formerly these fish were considered a nuisance to the fishermen.

**"PROVISIONAL PRESIDENT" OF MEXICO**

Francisco I. Madero, Jr., following his successful attack on Juarez, has constituted that city the seat of his provisional government and has appointed a provisional cabinet. Meanwhile he has been planning to march on the City of Mexico.

**PRINT PICTURES ON CALICO**

Two German Scientists, Drs. Martens and Roloffs of Freiburg, Discover Long-Sought Process.

Berlin.—By a wonderful new process of photographic calico printing in colors it is possible to have family portraits, landscapes and other pictures on your sofa cushions, curtains or tablecloths at a reasonable price.

The new process has just been perfected at Freiburg by Drs. Martens and Roloffs, two German scientists.

Hitherto artists have had to carve out designs on a series of wooden or other rollers, one for each color. Sometimes they put them on copper, by stipple work.

By the new process the artist paints his pattern on a piece of paper, which is then copied with a camera on a transparent film. The film is wrapped round a cylinder and a photograph obtained on the cylinder.

This photograph is etched or engraved in the usual way, and the cal-

ico is printed from it by photogravure. This means that the actual photographs are printed, and anyone can have family portraits on sofa cushions.

It is, of course, cheaper than any other kind of calico printing, and the delicacy and artistic beauty of the results are extremely beautiful. All the colors can now be transferred by the three-color process.

**Yellow Snow in Alps.**

Geneva.—Yellow snow has now fallen in the Engadine. This is far rarer than the black and red snow which has fallen on several occasions in different parts of Switzerland during the last few years.

Yellow snowfalls occurred in the Alps in 1850 and 1867, on both occasions in the month of February, being caused by a combination of winds, in which the African sirocco played an important part, blowing the minute sands of the Sahara across the Mediterranean and Italy and over the frontier Alps into Switzerland.

**PARROT DISTURBS A CLASS**

Bird Becomes Decidedly Profane During Discussion of English Sparrows in Central Park.

New York.—There will be only one species of the bird family in any great numbers in the parks of the city this year, according to Donald Burns, keeper of the aviary in the Central Park menagerie. He refers to the English sparrows.

When he told his class of youngsters from the nearby Fifth avenue houses in his talk that all the best birds would be scarce than ever because of the ever-increasing number of piratical sparrows, the youngsters were inspired with a desire to go out and shoot all they could find. But it remained for Dick, the parrot who has recently celebrated his centenary, to give voice to his feelings in a most determined way.

"Well, I'll be d—d!"

And when that "damn," with a big "D," came from the dignified parrot, Burns looked aghast.

"I wonder who could ha' taught him that?" exclaimed the keeper.

During the last week the window beside Dick's cage has been open, and it is believed his vocabulary was increased by some of the frequenters of the nearby benches.

**HALF TON OF HONEY FOUND**

Workmen Tearing Down Tavern Built 150 Years Ago Make Pleasant and Profitable Discovery.

Lenox, Mass.—One thousand pounds of honey, some of it more than sixty years old, is on exhibition at East Lee, a village near here. The entire quantity was obtained by workmen while tearing down a tavern built 150 years ago. They discovered in the garret more than fifty swarms of bees and their half-ton accumulation of honey. For more than a century the tavern has been in the hands of a single family. No person now living can remember ever having entered the garret.

**Win \$10,000 Opera Prize.**

New York.—Horatio William Parker, professor of the theory of music at Yale university, and Brian Hooker, formerly assistant in English at Columbia and later instructor in rhetoric at Yale, were awarded the Metropolitan Grand Opera prize of \$10,000 for their opera, "Mona."

**SCIENCE IS LACKING**

English People Make Exceptional Man Shift for Himself.

Germans Outstripping Britons Because Are Willing to Back Their Faith With Money—Employ Best Brains for Tests.

London, England.—Sir James Dewar, Britain's greatest chemist, is celebrating today the thirty-fourth anniversary of his professorship in the Royal Institution.

"We are not a scientific nation," he said, "as the people make the exceptional man shift for himself, and it is only faith and work almost superhuman that can enable him to follow to the end the true lines of his genius. Look at this institution and consider the names of the men who held my honored chair before me—Young, Davy, Faraday and Tindall. To them belongs the credit for discoveries of immeasurable benefit to mankind.

"Here Davy first showed the arc lamp, Tyndall conducted his investigations of radiant heat and magnetism and Faraday made discoveries in magneto-electric currents which form the basis of electric lighting and the transmission of power. Yet we have an endowment of only £250,000 (\$390,000) after 112 years. How do we go on? Well, that question is a puzzle to every savant that comes our way. A foreigner seeing what we have and knowing what we have done remarks: 'Your endowment must be enormous.' When we say we have no endowment to speak of he shrugs his shoulders and exclaims: 'England is a national enigma.'

"Why is Germany outstripping us in science and its practical applications? Because the Germans believe in science and are willing to back their faith with their money. Without any trouble at all the kaiser raises £500,000 (\$2,500,000) for research alone. The German firm of Bayer has established a gigantic business on the fundamental discoveries of British chemists. In 1875 Bayer employed 119 people. Now he employs 5,000 workmen, 680 clerks, 260 engineers and 190 chemists—mark, chemists! For all this British research into coal tar opened the path.

"Germans employ the best brains in the universities for specialized experiments in the commercial laboratories. The results are financial profits exceeding the wildest dreams of avarice. Do you know that the Germans spent in a quarter of a century £1,000,000 (\$5,000,000) on synthetic indigo? They subdivide the experiment and drive the inquiry to the limits of conceivability.

"Our national failing is that we do not provide chemists and other scientific students to carry on the lines of work developed by our outstanding geniuses in discovery. In this country the exceptional man is the cheapest of natural products."

**TO QUENCH A SUMMER THIRST.**

Don't pour a lot of ice water into you in order to quench the thirst for the moment—not only does it not produce the desired result, but it is bad for you.

There is just one beverage that fits all conditions of heat and thirst—COCA-COLA.

Next time you're hot, tired or thirsty drink a glass or a bottle of this one best beverage—delicious, refreshing, thirst-quenching. At soda-fountains or carbonated in bottles—5c everywhere. Write to the COCA-COLA CO., Atlanta, Ga. for a copy of their booklet, "The Truth About COCA-COLA"—you will find it interesting.

There are times in the life of every small boy when he would like to assume the role of father to the man for a few brief moments.

Some men look upon laws as things merely to be broken.

Many who used to smoke 10c cigars now buy Lewis' Single Binder straight 6c.

Some men will do more for a cheap cigar than they will do for a dollar.

**A Wily Judge.**

At an assize court, according to the London Times, a juror claimed exemption from serving on the ground that he was deaf. The judge held a conversation with the clerk of arraigns on the subject, and then, turning to the man, at whom he looked intently, he asked in a whisper: "Are you very deaf?" "Very," was the unguarded reply. "So I perceive," was the rejoinder of the judge, "but not whisper deaf. You had better go into the box. The witness shall speak low."—Case and Comment.

**Took Professor's Word for it.**

"Didn't you hear all of the professor's lecture?"

"Why, no. He began by saying that sleep is the secret of right living—and then I came home and went to bed."

**Beautiful Post Cards Free.**

Send 2c stamp for five samples of our very best Gold Embossed Birthday, Flower and Motto Post Cards; beautiful colors and loveliest designs. Art Post Card Club, 741 Jackson St., Topeka, Kan.

**He Knew.**

Backer—You got trimmed bad. I thought you said you were confident of the result.

Puglist—I was. I knew I'd get licked.—Puck.

**Mrs. Winslow's Soothing Syrup for Children**

teething softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

**The biggest work in the world is being done in the little red schoolhouse.**

Garfield Tea overcomes constipation.

The way of the transgressor is hard but smooth.

**A Drop of Blood**

Or a little water from the human system when thoroughly tested by the chief chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., tells the story of impoverished blood—nervous exhaustion or some kidney trouble.—Such examinations are made without cost and is only a small part of the work of the staff of physicians and surgeons under the direction of Dr. R. V. Pierce giving the best medical advice possible without cost to those who wish to write and make a full statement of symptoms. An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alternative and glyceric extract of roots, without the use of alcohol, such as

**Dr. Pierce's Golden Medical Discovery**

Which makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment. Get what you ask for!

**44 Bu. to the Acre**

is a heavy field, but that's what John Kennedy of Houston, Alberta, Eastern Canada, got from 44 acres of Spring Wheat in 1911. Reports from other districts in that province show yields of 40 bushels of wheat per acre, or 38 1/2 bu. per acre, 35 and 40 bushels of wheat per acre, as high as 102 bushels of wheat per acre were harvested from Alberta fields in 1911.

**The Silver Cup**

at the recent Spokane Fair was awarded to the Western Farmers' Loan and Trust for its exhibit of grain, grasses and vegetables. Reports of grain yields for 1911 come also from Saskatchewan and Manitoba in Western Canada.

**Free homesteads of 160 acres**

are to be had in the choicest districts. Schools, convenient climate, excellent soil, the very best, railroads close at hand, public buildings, churches, all easy to get and reasonable in price, water readily procurable, excellent farming success.

**Write us to best place for settlement**

and we will give you full particulars, descriptive literature, and a complete list of homesteads for application and other information, to Dept. of Immigration, Ottawa, Can., or to the Canadian Government Agent.

W. V. BENNETT, Ottawa, Ont. Please write to the agent nearest you.

**KODAK FINISHING**

Mail orders attention: All supplies of amateur strictly fresh. Send for catalogue and finishing prices. THE ROBERT DEMPSTER COMPANY, Box 157, Omaha, Neb.

**DEFIANCE STARCH**

It comes to other starches only 13 cents—same price and "DEFIANCE" IS SUPERIOR QUALITY.

PATENTS: Fortunes are made in patents. Protect your rights. Our 48 page book free. Fitzgerald & Co., Box 8, Washington, D. C.

W. N. U., OMAHA, NO. 22-1911.
