

The Table Silver Ware should come from a jewelry store both for the reason of true economy, which means true values for your money, and from the satisfaction that comes from contact with things of this kind being absolutely reliable. From the standpoint of years of service, tableware when bought from us is twice as cheap as the service you get when you buy trash.

The ball game Wednesday afternoon between the North Platte and Yeomen teams lacked the go and snap that should attend the game to make it interesting and attract the crowds. At the present time the Yeomen are bested in so many spots that there is no comparison of the teams, but Manager O'Connell says that he has reinforcements coming and that he intends to strengthen every weak place, and will put up a real article of ball that will be worth turning out to witness.
