The Union Pacific has issued in pamphlet form, for the edification of its employes, an address on "Efficiency of Public Service of the Railways" delivered by Julius Kruttschnitt before the graduate school of business administration of Harvard university. As the address is along the economic lines especially in small details, he dwells on what the value of a two cent postage stamp will do in modern railroading. On the basis of 1.92 cents being the unit cost of transportation per mile to a passenger, and 0.76 cents per ton mile of freight, he figures that for a two cent postage stamp the railroad carries a passenger one mile, 3000 lbs of vehicle to seat him, 650 lbs of vehicle for his luggage, and 2000 lbs of sleeping, dining and parlor equipment for his comfort. For the same tiny stamp the railroad carries 2 and 3-4 tons of freight one mile.

Pay Checks One Day Earlier.

Pay checks for the Wyoming division employes will be distributed on the 18th instead of the 19th. This in accordance with a request from the Chamber of Commerce, and was made in order that the rush of pay-day business could be gotten over with before the arrival of the Wild West show, which comes the 19th.

Want Shorter Hours, More Pay.

That the railroads of the west are threatened with a general strike was indicated at Chicago Tuesday by statements of Julius Kruttschnitt, vice-president of the Union Pacific and Southern Pacific roads. According to his statements, the unions have presented demands that would mean an additional burden of \$50,000,000 a year to the western railroads.

Employees of the railroad shops including blacksmiths, car workers, iron molders, machinists, and pattern makers are said to have presented demands calling for a strict enforcement of the eight-hour day, employment of union foremen exclusively, various changes in working conditions and more pay.

"The railroads are paying top-notch wages now," said Mr. Kruttschnitt, "and the demands that have been made are unreasonable. I am merely guessing when I say the plans the unions have mapped out would mean an additional burden of \$50,000,000 a year to the roads, but it is certain the additional expenses would be large."

Cattle and hogs are again soaring. At South Omaha Wednesday beef cattle sold as high as \$7.50, western Nebraska steers at \$5.50 and the top price for hogs was \$7.50. So long as these prices prevail the average farmer will not ponder much over Canadian reciprocity, for high prices for cattle and hogs mean high prices for hay, corn and other grain.

The public comfort committee of the Chamber of Commerce is very anxious to learn the names of those who have rooms which can be rented for the nights of August 18th and 19th. It is expected that the number of visitors in town on Friday and Saturday of next week will be larger than the hotels and rooming houses can accommodate, and rooms are badly needed. To take care of these visitors is a proposition that can only be solved by concerted action on the part of the people at large. Those who have rooms to rent for those two nights should send word to O. E. Elder or E. J. Van Derhoof.
