

It's Big Ben

sooner or later for people who've got to get up early in the morning.—For he's punctual, lasting, handsome and the best insurance against oversleep that I've ever heard of.

There's no guess work about him.—He calls you on the dot just when you say and either way you say—steadily for five minutes or intermittently for ten.

I have placed him in my window, take a look at him whenever you go by.—You can't miss him, he's on a pedestal in a class by himself.
