Snow storm yesterday morning, snow storm this morning and snow predicted for to-night or to-morrow. There is always something for which we can feel thankful.

Republicans who do not grow wildly enthusiastic over Roosevelt's candidacy for the republican presidential nomination can scarcely be faulted. It was only a few months ago that the Colonel wrote his friend and champion, Editor Moore, of Pittsburg, in which he said "I would regard my nomination as nothing short of a national calamity." If the Colonel then felt that way himself, those that think that way now cannot be faulted.

Germs Spread in Skin

Eczema, Psoriasis and other skin troubles are caused by myriads of germs at work in the skin. Unless these germs are promptly destroyed they rapidly multiply, gnawing their way deep into the sensitive tissue. This is what causes that awful itch, and what seemed a mere rash may grow worse and develop into a loathsome and torturing skin disease with its years of misery.

Don't take any chances! Destroy the germs at the beginning of the trouble with that soothing and cleansing wash, the D. D. D. Prescription for Eczema. A 25c bottle will prove this to you.
