

**The Man and the Place.**  
Andrew Carnegie was giving advice on a recent Sunday to one of the younger members of the Rockefeller Bible class.

"I am an advocate of early marriages," he said. "The right man in the right place, at the right time, is a very good saying, and to my mind, the right man in the right place at the right time is unquestionably a husband reading to his wife on a winter's night beside the radiator."

# The KITCHEN CABINET

**It is never hard to do the right thing; it is in deciding to do it that the fun comes.**

Let us try to make it a little easier for the child to do right and a little harder for it to do wrong.

**DAINTY THINGS FOR THE TABLE.**  
A perfectly delicious and most attractive dessert is:

**Fruit Sponge Droppes With Cream.**  
Beat thoroughly a cup of sugar and three eggs, add a third of a cup of water and a cup of flour sifted with two teaspoonsful of baking powder. Add salt and a teaspoonful of vanilla. Bake in patty pans and when cool scoop out the center carefully and fill the cavities with peaches, pears or any desired fruit. Place a spoonful of whipped cream on each, garnish with a piece of fruit used for the filling, and serve. Or they may be rolled in boiled frosting and sprinkled with coconut.

**Cottage Cheese Salad.**—Mix two cupsful of cottage cheese with half a cup of walnut meats, a teaspoonful of chopped chives or onion. Season highly with salt and paprika, and arrange in balls, three in a nest of lettuce. Pour around them mayonnaise to which has been added some chopped olives or capers.

**Mock Clam Soup.**—Wash free from salt a half pound of salt codfish, cover with a quart of cold water, and bring to the boiling point and simmer for one-half hour. Remove the fish, which may be saved for balls and strain the water, add a thickening of a tablespoonful of butter which has been cooked with a tablespoonful of flour. Add a pint of milk and bring to the boiling point. Into the soup dish place a piece of buttered toast, pour in the soup and garnish with finely-cut parsley.

**Graham Bread.**—Mix two cupsful of scalded milk, one-third of a cup of molasses, two teaspoonfuls of salt, and when luke warm a fourth of a yeast cake dissolved in warm water, and two cupsful of flour, four cupsful of graham. Beat well, let rise until double its bulk, beat again, place in buttered pans and when well risen, bake in a moderate oven.

**Prune Pudding.**—Make a small mold of lemon jelly. Cook until tender a cup of large prunes, place in a glass dish and pour over the lemon jelly. Set away to harden. Serve with whipped cream.

**SEASONABLE DISHES.**  
During the cold weather we are able to digest heartier foods and they are most necessary to keep up the body heat. An occasional dish, not so rich in fat, is refreshing. Here is a recipe rather unusual:

**Marshmallow Grape Juice.**—Add the juice of a lemon to a quart of grape juice and sweeten as desired. Boil with a stick of cinnamon and a few cloves. Serve hot in glasses with two marshmallows in each glass. This is a nice hot drink on a cold day.

**Mutton in Green Grape Sauce.**—Brown two tablespoonfuls of butter and two of flour in a saucepan; add salt, pepper and a cup of gravy. As soon as well blended add a third of a cup of green grape jelly. When melted, lay in a few slices of roast mutton, and when thoroughly hot add five tablespoonfuls of unsweetened grape juice, and serve.

**Oysters Sauted.**—Pour a quart of boiling water over a pint of oysters, then drain and chop fine. Melt two tablespoonfuls of butter, turn in the oysters and season well; add two tablespoonfuls of rolled crackers and three-fourths of a cup of cream, stir and cook five minutes. Serve on toast strips with parsley.

**Baked custards** are greatly improved by the addition of a few spoonfuls of coconut. The same is true of custard pie.

**HERE** are two stones we may not dare to cast:  
The stone of stumbling in our brother's way.  
The stone of judgment at our brother's past.  
We, who ourselves like sheep have gone astray.  
—Hamilton.

**PRACTICAL POINTS.**  
During the extremely cold weather if the clothes pins are put into a dripping pan and heated hot, the hanging out of the clothes will be made much more comfortable. Do not carry out a full basket, or all the pins. A second trip will more than pay by the comfort.

Always wrap linen that is to lay any length of time, in blue paper. It will keep it from turning yellow.

Hair brushes, if carefully washed in hot soda water and quickly dried, will keep their freshness for years.

A good housekeeper says if we will stir a tablespoonful of vinegar into the lard in which fritters, doughnuts or potatoes are fried, they will not soak fat.

A teaspoonful of salt or a small piece of gum camphor added to the oil in a lamp is said to improve the light, always providing the burner is kept clean.

To lessen the labor of ironing table linens, if they are wrung by hand the wrinkles are not so firmly set and will dry smooth.

Eat apples. They are a tonic and an appetizer. They are rich in flavors and a valuable food adjunct.

If one would have a good complexion, it is necessary to have plenty of fresh air while sleeping and plenty of work to keep the mind busy. The only wrinkles then will be those made from laughter, and those are considered beautiful.

Winter or summer one window in the sleeping room should be kept open, day and night.

One person can exhaust all the air in an ordinary bedroom in an hour. A well-ventilated bedroom and the sleeper's head entirely covered with the bedclothes is no better than sleeping with a closed window.

Don't worry about taking cold. Fresh air is one of the best preventives.

## FLAX GROWING IS PROFITABLE

WESTERN CANADA FARMERS BECOMING RICH IN ITS PRODUCTION.

So much has been written regarding the great amount of money made out of growing wheat in the prairie provinces of Manitoba, Saskatchewan and Alberta, Western Canada, that many other products of the farms are overlooked. These provinces will always grow large areas of wheat—both spring and winter—and the yields will continue to be large, and the general average greater than in any other portion of the continent. Twenty, thirty, forty, and as high as fifty bushels per acre of wheat to the acre—yields unusual in other parts of the wheat growing portions of the continent—have attracted world-wide attention, but what of oats, which yield forty, fifty and as high as one hundred and ten bushels per acre and carry off the world's prize, which, by the way, was also done by wheat raised in Saskatchewan during last November at the New York Land Show. And then, there is the barley, with its big yields, and its excellent samples. Another money-maker, and a big one is flax. The growing of flax is extensively carried on in Western Canada. The writer has before him a circular issued by a prominent farmer at Saskatoon. The circular deals with the treatment of seed flax, the seeding and harvesting, and attributes yields of less than 20 bushels per acre, to later seeding, imperfect and ill-prepared seed. He sowed twenty-five pounds of seed per acre and had a yield of twenty-nine bushels per acre. This will probably dispose of at \$2.50 per acre. Speaking of proper preparation of seed and cultivation of soil and opportune sowing, in the circular spoken of there is cited the case of a Mr. White, living fourteen miles south of Rosetown, "who had fifteen acres of summer fallow a year ago last summer, upon which he produced thirty-three bushels to the acre, when many in the district harvested for want of crop. Now, there can be no proper reason advanced why such a crop should not have been produced on all the lands of the same quality in the adjacent district, provided they had been worked and cared for in the same manner. This year (1911) the same man had one hundred acres of summer fallow, had something over 3,500 bushels of wheat. He also had 1,800 bushels of oats and 300 bushels of flax."

There are the cattle, the horses, the roots and the vegetable products of Western Canada farms, all of which individually and collectively deserve special mention, and they are treated of in the literature sent out on application by the Government agents.

**Quit Going Out.**  
An Atchison girl began going with an Atchison man several years ago. He called about every evening in the week. Took her to the theater, moving picture shows and dances. They went buggy riding together, and walking Sunday afternoons. About a year ago they were married. Since then theatergoing has stopped, a dance is unheard of, and a moving picture show an event to the couple. Sunday afternoon walking has ended, and buggy riding belongs to their dead past. The other day the girl met one of her neighbors who evidently had not heard of her marriage. She said to the girl: "You have quit going with that fellow you went with so long, haven't you?"—Atchison Globe.

# Girls

Read About These Three Girls. How Sick They Were and How Their Health Was Restored by Lydia E. Pinkham's Vegetable Compound.

Appleton, Wis.—"I take pleasure in writing you an account of my sickness. I told a friend of mine how I felt and she said I had female trouble and advised me to use Lydia E. Pinkham's Vegetable Compound, as she had taken it herself for the same trouble with wonderful results. I had been sickly for two years and overworked myself, and had such bad feelings every month that I could hardly walk for pain. I was very nervous and easily tired out and could not sleep nights. I had dizzy spells, and pimples came on my face. But I have taken your Lydia E. Pinkham's Vegetable Compound and it has restored my health. I think it is the best medicine in existence."—Miss Cecelia M. Bauer, 1161 Lawrence St., Appleton, Wis.

**A SCHOOL TEACHER'S GRATITUDE:**  
Geneva, Iowa—"I have been teaching school for some years and I have neglected my health because I was too busy with my work to attend to myself properly. I suffered greatly every month and was on the verge of a nervous breakdown. I wrote to you about my condition and took Lydia E. Pinkham's Vegetable Compound and the Blood Purifier as you recommended. These remedies have done wonders for me and I can highly and widely recommend them to every suffering woman."—Miss Minnie Shaver, R. F. D. No. 1, Geneva, Iowa, c/o Sam Erickson.

**A COLORADO GIRL'S CASE:**  
Montrose, Col.—"I was troubled very much with irregular periods. Sometimes two months would elapse. I suffered severe headache, was weak and nervous, could eat scarcely anything. I took both Lydia E. Pinkham's Vegetable Compound and Blood Purifier and the result was wonderful. I feel like another person. I think your remedies are the best on earth and cannot express my thankfulness to you for what they have done to me. I help my neighbors when they are sick, and I shall always recommend your medicines."—Miss Ella McCandless, Montrose, Col.

Is it not reasonable to suppose that a medicine that did so much for these girls will benefit any other girl who is suffering with the same troubles?  
Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there are lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself who will not try this famous medicine, made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.
