We understand that should the city fail to complete the sale of the water bonds by March 31st, the water company will accept the bonds as collateral and turn the plant over to the city on that date. The transfer on this date is desired for the reason that it is the end of a quarter of the water rental year, and therefore a good time for the city to accept the plant.

A mellordrammer was enacted in the shoe repairing department of the Yellow Front shoe store one day this week the principal characters being an old shoe, an honest shoe cobbler and a distracted young business man, who, by the way, is also a young husband. He brings in a pair of his shoes which need some slight repairing. The cobbler, in making the repairs, finds a hidden treasure consisting of \$33.00, a gold watch, two stick pins and other valuables all securely resting in the toe of one old shoe. Whether this young man doubts the reliability of the banks or is concealing his possessions from his wife is a mystery, but we are safe in saying that he has decided on a different hiding place.

We are informed that nearly all the available hay in this territory has been baled and sold and that some feeders will soon feel the shortage. Leypoldt & Wickstrom, without a doubt, the biggest hay firm in the state of Nebraska, have been preparing for this and have ten large barns filled to the brim with the precious forage. The greater part of their hay is stored here but they also have barns along the line both east and west of us, extending as far east as Gothenburg, and to Julesburg west of us. Nearly every day they receive calls from outside states and their buyers are from nearly every state in the union.—Hershey Times.

Forty Cattle Drown.

Mr. Shriever, lessee of the Pawnee ranch at Gannett, lost forty cattle by drowning a few days ago. A big bunch of cattle were driven to the river to be watered, and when they reached the bank they stampeded into the river and the weaker ones were crowded into deep water and were drowned.

Greek Meets Greek With Knives.

In a free-for-all melee at the Greek headquarters on east Front street yesterday afternoon one man received a serious knife wound in the neck, the other had his scalp cut with a razor. Dropping blood on the snowy sidewalk at each step he took, the one with the gash in his neck walked to Dr. Twinem's office, where the wound was dressed and stitched, and later he was hauled to jail, while the other with the scalp wound sought another physician, received the necessary attention and then went in hiding from the officers. J. D. ROCKEFELLER

FROM A BUST IN THE UNIVERSITY OF CHICAGO

Would John D. Rockefeller have been the richest man in the world if he had spent the first money he earned?

HE PUT IT IN THE BANK

When John D. Rockefeller went into the oil fields, he went there with Two Thousand Dollars that he had saved and with which he was ready to take a good business chance. HAD HE NOT HAD HIS MONEY IN THE BANK, he would not have been able to take the business chance that led to his stupendous fortune. John D. Rockefeller was no different from other fabulously RICH MEN. THEIR GREAT FORTUNES were logical results of THEIR FIRST SAVINGS.
