Re-elect Officers.

There are over 700 shareholders of the Mutual building and loan association, yet at the twenty-fifth annual meeting held Saturday evening only twenty-two were present, and of the 5000 shares held only 378 were voted. The people of North Platte have nearly \$500,000 invested in the association, yet they do not evince enough interest to attend the annual meeting. While this condition is in a sense an expression of confidence in the management, yet the directors and officers would feel better if the stockholders turned out in full numbers at this annual meeting.

Those present Saturday evening voted unanimously for the re-election of Messrs. Patterson, VonGoetz and Redmond as members of the board of directors, and later when the directors met they re-elected the former officers as follows: T. C. Patterson president, V. VonGoetz vice-president, Saml. Goozee secretary, F. E. Bullard treasurer and Wilcox & Halligan attorneys. Loans of nearly ten thousand dollars were approved and allowed.

A la Wallingford.

Geyer and Christiansen, late of the Ritner house, seem to have been good seconds to J. Rufus Wallingford and Blackie Daw in their business transactions in North Platte. Depositing a few hundred dollars in a local bank when they first arrived, which amount they boosted to \$2,000 in their talk to local business men, they succeeded in establishing a credit which enabled them to purchase about \$2,000 worth of furnishings. In some instances they made small payments to their creditors, but all the time "salted" part of the receipts of the business, and for the last thirty days of their business career they seem to have "salted" every dollar that came into their possession. Some of those more intimately acquainted with the men and the business are of the opinion that the two men carried away with them not less than a thousand dollars each.

Representative Arrives.

J. C. Adams, a former superintendent of the local water plant but now associated with the main office of the American Waterworks Company in Pittsburg, arrived Sunday afternoon and will represent the company in the transfer of the plant to the city. The only issue that may be contested will be the claim of the company for improvements made since the appraisal was made, which claim amounts to about \$2,500. It is believed, however, that both parties will make some concessions and that the claim will be settled without delaying the transfer of the plant.
