Let us help you

We always have time to listen—
Come in

When a man is sick he pays a doctor for advice before he uses it; he does the same with his lawyer. The banker gives advice cheerfully and free. When you are in financial difficulties, why not consult us? It is strange that the banker, whose advice is as cheerful as it is free, is never sought BEFORE men have risked and lost their money, but AFTER. If you want some advice or help come in; we will welcome you.

Three Big Nights.

The committees appointed to arrange for the Elks' carnival on Wednesday, Thursday and Friday evenings of this week, have about completed their work, and by tomorrow evening will be in splendid shape to entertain the big crowds that are expected to attend each evening. The Elk colors are displayed in many well trimmed windows on Dewey, and in a number of the windows displayed and the articles donated by the merchant-members. These donations include suits of clothes, traveling bags, brass beds, chaffing dishes, toilet articles and one practical member donates 500 pounds of flour. These articles will be sold during the three evenings.

The interior of the Elks' home has been decorated and a number of booths erected.

On the second floor there will be a booth for the sale of fancy work in charge of Mrs. Seeburger and Mrs. Woodhurst, a tea room, where light refreshments will be served, in charge of Mrs. Cunningham and Mrs. Dixon, a confectionery booth in charge of R. E. Dickey, a cigar stand, and two rooms devoted to games and shows, one in charge of Dick Baker, the other managed by Jim Keef. On the third floor there will be a confectionery booth conducted by Ed Kolber and a booth for the sale of pennants in charge of Mesdames Clark and Frank Buchanan. The main hall will be used for dancing purposes.

The show and game rooms will contain many amusing devices, and stunts of different kinds will be put on at regular intervals.

An admission of ten cents will be charged at the door and with each ticket sold a chance on a town lot will be given.

"Teter" Harris Killed by Engine.

The Locust street crossing was the scene of another fatal accident Saturday evening about 9:30 when "Teter" Harris was run down by a switch engine and so badly injured that death ensued an hour later. At the time Harris attempted to walk over the crossing the wind was blowing a gale and he did not notice the approaching engine, neither did the engine crew see him until he was ground under the wheels. Both legs were amputated at the knee and he was otherwise mutilated about the body. He was carried to the depot and Doctors McCabe and Kerr summoned, but they found life fast ebbing away and the unfortunate man beyond their aid.
A coroner's jury was empaneled and after hearing the testimony of the switch engine crew returned a verdict that did not place blame on any one.
Harris, who had been a resident of the town for a number of years, was about fifty-five years of age, and being unmarried had made his home with Walter Stewart, who resides in the Fourth ward.
The funeral was held yesterday conducted by Rev. Miller.

Leases Odd Fellows' Room.

At the meeting of the board of trustees of the Odd Fellows' lodge Saturday evening a ten years' lease of the ground floor of the building was made to the Platte Valley State Bank, occupancy to begin as soon as repairs are completed following the vacation of the room by the postoffice. The front of the building will be changed and an entrance made at the northeast corner, the room will be extended back over the boiler room, a vault constructed and other changes made, the whole to cost twelve or fifteen hundred dollars. J. G. Beeler will occupy the rear part of the room as a law office. With the tendency of the business section to grow south and west the location will be an excellent one for a bank. It will be well toward the end of the year before the bank will get into its new quarters.

CLABAUGH'S

The Only Store that Guarantees its
BLUE SERGES.

When we first offered our true blue serges to the public we were prepared to supply the finest serges possible to make. We knew the colors would not fade, we sold them with the utmost confidence and they always bore out our recommendation of them. So surpassingly good were they, and so absolutely faultless in make and fadeless in color, that we decided that in the future we will put a positive "stringless" guarantee on them. This is the only store in North Platte with confidence enough in their Blue Serges to guarantee their color.

It's unusual, but this is an unusual store.

Here's Our Guarantee: Read it

"If a Clabaugh True Blue Serge fades from natural causes, sunlight, rain, snow or ordinary wear, we will replace it free of charge with another suit of equal quality and thank you for giving us the opportunity of making good."

Discuss Depot Proposition.

Seventy-five or more citizens gathered at the court house last evening, discussed the depot proposition, and after debating the subject for an hour and a half, left the matter just where they found it at the start—the meeting was barren of results. President Mohler had said that he had recommended an appropriation of \$336,000 for a new round house, coal shutes and other terminal improvements for North Platte; he had also included in his budget \$85,000 for a new depot; he did not think the directors would allow both; while the company wanted the terminal improvements ahead of the depot, the citizens were insisting on a depot; he put up to the people the question which did they want first, the round house and other improvements or the depot. To discuss the proposition the meeting had been called. Remarks were made by Messrs. Seeburger, Patterson, Keefe, Neville, Hoagland, Father McDaid, Dr. Quigley, Bare, Martini and others. Some favored a straight-out demand for a new depot, others favored the terminal improvements, while others thought best to keep hands off and not attempt to interfere with the plans of the company. The latter view finally prevailed, and President Seeburger of the Chamber of Commerce was authorized to communicate with President Mohler that the North Platte people wanted both the depot and the terminal improvements—and God speed the day when we could have both.
