O. E. Elder yesterday purchased the abstract business of Butler Buchanan, which includes a full and comprehensive abstract record of the county. The Buick Beats the Ford.

The local Ford agents took water yesterday at the Experimental Farm hill when the Buick easily outclassed the Ford. The Buick car climbed the hill with a load of passengers and the Ford was unable to even make a good showing with just the driver alone in the car. Carpenter tried to climb the hill with his model T touring car but had to unload the passengers shortly after starting and never even reached the hard part of the climb. After overheating the engine furiously and boiling the water out, he gave up in disgust. William Hendy tried the hill with his fast (?) roadster and was unable to do anything but boil—the water. On the way back to town the roadster driven by Hendy was easily passed and run away from by the car from the Davis garage. BUICK.

Our Big Sale of Women's Suits

Opened Wednesday With a Record Breaking Attendance

And no wonder! for the values we now offer are the most remarkable ever seen in this section of Nebraska so early in the season.

This is not a sale of odds and ends or last season's left-overs or resurrected "has-beens" from years gone by. It would be easy enough to make low prices on old stuff that no one wants. But these suits are all new and desirable—every one from a good maker—every one in a fashionable model of recent origin. Qualities and styles to suit every taste and fancy and a complete assortment of sizes for women of all proportions.

Every Suit was made for Spring Business.

Ever reduction is genuine and the saving involved on every Suit is sufficiently large to warrant you in making your purchases now, even though you may not have intended to buy until a little later. The savings are too great to be overlooked, and the values are too great to last long. Here's the way we're letting them go.

\$30 and \$35.00 Suits at . . .	\$24.48	\$20.00 Suits at	\$14.48
\$25.00 Suits at	\$19.48	\$15.00 Suits at	\$9.98
