## Of Interest to the Motoring Public.

For the past few weeks our local papers have been congested with articles and advertising relative to motor cars that have and have not climbed a certain hill in this locality.

At first it was amusing but finally reached the stage where the "back-biting" has become irksome and shows the true character of the dealers participating in the same.

Anyone may purchase space in a paper and put therein articles that he may purport to be facts, but that does not necessarily make it a fact. The Chalmers car has never been tested on this hill by the writer but I know that I can drive a Chalmers any place the above car can go. What a novice driver may have done is no measure relative to the ability of the car in the hands of a driver.

Chalmers cars have a national reputation that cannot be questioned by any local demonstrator and I do not deem it necessary to follow Mr. Herzog over somebody's cow pasture to maintain it. The thinking man will take into consideration his mercenary motive. The Chalmers has never been defeated by a car of its class; in such events as the Indiana Trophy, Santa Monica, the national race on the Lowell course, and the 1910 Glidden Tour the Chalmers won over all cars locally represented. All cars in these events were driven by men who knew how, so the test was fair. Why go further and quibble with local factions that will prove nothing and only result in "mud slinging?" In 1911 the "Motor Age" gave the Chalmers the title of champion car after compiling the records for the season.

The wise heads of the Chalmers concern having gained this reputation could see no reason for continuing the expense of racing teams, an expense that must eventually be borne by the Chalmers buying public, so decided to abandon the same and give the public the benefit by reducing the price of their cars.

1909 Chalmers carried the mail from Gothenburg to Arnold last winter and is still carrying it, without trouble; a Buick is in the mail service from North Platte to Gandy and has broken down repeatedly. Local Buicks have given rear axle trouble, Chalmers never have; gears have chipped and compelled replacement on practically new Buicks, Chalmers never have; different models of Buicks have been operated for weeks at a time on three cylinders because they could not be made to hit on four; a Buick was towed to town by, and traded in on, a model "T" Ford a car famous only for its cheapness; a Chalmers never suffered such an end. I don't boast that a man has owned his fourth or fifth Chalmers, as the Buick owner boasts of his Buick owners. When a man buys a Chalmers he buys a car that endures and is not compelled to trade it in on another Chalmers in order to get something like the value of the car, for he has bought a car he will be proud of the fourth or fifth year. A Chalmers "30" forded the South Platte river with four people and eight hundred pounds of baggage. Should I assume that all other makes of cars were defeated because they were not there to attempt it?

In justice to the owners that have purchased Chalmers cars and to the men that are going to, I feel compelled to publish the above, much as I regret it. I further consider it beneath my dignity and the dignity of the car I represent to participate in any "scare-head" newspaper squabble and this will be the only "out burst" from this source.

MINER HINMAN,  
Chalmers Dealer.

Mr. Farmer, Providence is kind. Don't you think you had better do your part and insure your wheat and oat crop against loss by hail with Bratt & Goodman?

When tomorrow you make your way to the show grounds where the World Famous Kit Carson Ranch Wild West is to exhibit, be sure the first point of interest you make for is the Indian Village. There you will see Indian chiefs and warriors of three distinct tribes; Sioux, Comanche and Cheyenne braves with their squaws and paposes, clad in their gaudy, many colored blankets and feathers, living in their historic tepees, beading their moccasins and chanting the songs of the unforgotten warpath. It is a rare sight indeed to see them just as they exist when on the government reservation, for before many years the Indian of today will be but a memory. They are fast disappearing and many of us who living today will see the last of their kind.
