The Triple Importance of Our Great May Sale.

It is Noteworthy in Point of Quantity, Quality and Splendid Value Giving.

Success is not merely a matter of good fortune. We do not look upon the immense success attained by our May Sale as "luck" We regard it as the result of careplanning, which enables us to offer seasonable, needed merchandise at prices much lower than these same goods have sold for at any time this season.

All small lots of Spring and Summer merchandise have been gathered and grouped for convenient selection, and marked at prices that cannot help but impress you with the very unusual values this May Sale provides. Included also is much recently arrived merchandise, purchased from manufacturers below regular cost.

Yet these low prices would be meaningless, were it not for the fact that every article involved in this sale is of a high and worthy quality. The combination of fine quality, low prices and big quantities of merchandise place this sale head and shoulders above any May bargain-event previously held in this city.

The following prices speak eloquently of the values offered:

Shoes
