Theford's Black-Draught

the old, reliable, purely vegetable, liver medicine.

Mrs. J. H. Easler, of Spartanburg, S. C., says: "I had sick headache, for years. I felt bad most of the time. I tried Theford's Black-Draught, and now I feel better than when I was 16 years old." Your druggist sells it, in 25 cent packages.

Fords Continue Popular.

The Hendy-Ogier garage disposed of three cars this week, one to J. A. McNeel, of Sutherland, another to Clyde Trotter, of Brady, and the third to Jeff Thompson, of Garfield. Other sales have been made pending arrival of cars. Mr. Trotter has been using a heavier car, but has concluded the Ford is the car he really needs.

North Platte on Route.

The 1912 annual Glidden tour has been announced and will include North Platte as one of the points on the route. The trip will be from New York City to San Francisco, leaving the former city August 22nd and arriving at the latter Sept. 12th. The tourists are scheduled to arrive at North Platte at noon on September 1st, and will probably take dinner here.

North Platte Captures Tournament.

Messrs. Hosler, Watkins, Neville, McDonnell and Rebhausen were in Omaha this week attending the annual tournament of the Nebraska state sportsmen's association, and they returned with trophies dangling to their belts. One of these trophies consisted of the election of M. Keith Neville as president of the association and Henry Rebhausen secretary and treasurer; another was the selection of North Platte as the place for holding the 1913 tournament of the association. This tournament will bring 200 or 300 trap shooters to North Platte for three days. The Buffalo Bill Gun Club will no doubt make this tournament a most successful one.

To Boost Good Roads.

Advice has been received in North Platte that about the 10th or 15th of June, H. E. Frederickson, chairman of county roads committee of the Omaha Commercial Club, will go through with a party of newspaper men, photographers and others to boost for better roads. Mr. Frederickson's letter in part follows:

"I will have with me a newspaper man, a photographer and representatives from Omaha Commercial club and the Omaha Automobile Club. I will advise you a couple of days before I will be in your city and should like to know if your good roads boosters would meet us at a set time so we can discuss matters that will help to improve the roads.

"This will not be a joy ride but an offer on our part to heartily co-operate with you in stimulating better roads. Kindly arrange to use us to the best interests of the Goods Roads Movement."

Cattle Pastured.

Wanted 200 head of cattle to pasture for summer. Good grass and water; free from green heads and mosquitoes. Address W. C. Edis, North Platte, Neb. 36-8

WILCOX DEPARTMENT STORE

Weather conditions the past week have not been such as we desire; the strong winds daily since Sunday, together with the hot sun, has extracted the moisture from the soil, and in some sections, at least, crops are suffering. All along the Union Pacific rain is needed badly, for small grain is turning yellow and corn is not making the desired growth.

Wanted—A girl for general household work. Inquire of Mrs. Geo. T. Field, west Fifth street.

Roosevelt carried the New Jersey republican primary election Tuesday by a majority of 10,000 and secured the full delegation from that state to the republican national convention. These twenty-eight delegates give Roosevelt a big boost, and makes the result of the national convention the more problematical, although the Taft managers still claim that they have a sufficient number of delegates to nominate.

The convention of the brotherhood of locomotive engineers, which has been in session in Harrisburg, Pa., since May 8, will conclude its business program in the coming week. Two sessions a day will be the rule from now on. In addition to the completion of the election of grand officers, the most important matters of business are action on the proposed brotherhood pension plan and the selection of the next place of meeting. Cleveland is being boomed as the permanent meeting place, but bids also have been made for the next gathering by Salt Lake City and by Stockton, Cal.

Russell Bedell has taken employment at the Hendy-Ogier garage and Ferd Streitz at the Davis garage, both for the purpose of picking up a knowledge of automobile mechanism, and the way to right things when they are wrong.

There will be a wedding in North Platte on each of the four Wednesdays in June; that is The Tribune knows of that many for those days, there may be more. That three of these girls should marry out-of-town boys is hardly fair to the town boys.

If as reported, the Harriman interests have secured control of the Erie railroad, it means that the Harriman lines will extend from coast to coast. This undoubtedly is the dream of Mr. Harriman, and that his hopes and wishes have been carried out by his successors, is more or less gratifying. With a coast to coast line it means more employes, and consequently a greater pay-roll for North Platte.

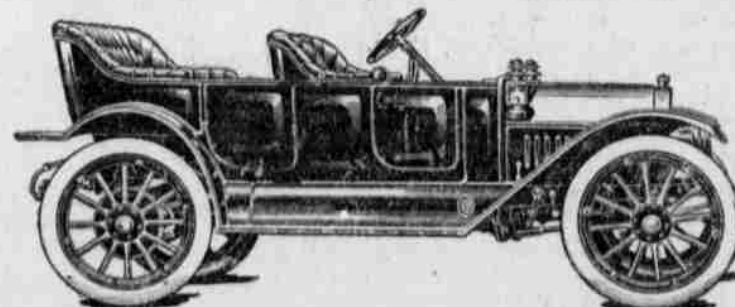

The water department has served notice on us—in this case is the people—that for lawn sprinkling and garden irrigation we can use water only on alternate days—east of Locust street on Monday, Wednesday and Friday, west of that street on the other week days; Sunday we should go to church, hence we won't have time to sprinkle with our little hose. We—this again means the people—don't like this ruling; with the present weak pressure, due to lack of boiler capacity, to water a lawn every other day in times of hot sun and hot wind, pretty near means the loss of the lawn. But

the water department is doing the best it can; it desires to treat everybody alike, hence water every other day. But cheer up, things will not always be thus.

Ed. Markus left Wednesday afternoon for Grand Island.

Joseph Stone visited in Lexington on business the fore part of the week.

Model 29 Buick—Price \$1,325.

In the Model 29 BUICK, we offer a touring car of 37 H. P. The straight-line body has a five passenger capacity. In design and finish, it is particularly handsome, and has been exceedingly well received by the public. It is one of the Big Hits of the year 1912, and will compare with any other car selling up to \$1500.00. Notice the road clearance, 11½ inches or the noiseless overhead valve motor. Another feature in this model, is the unit power and transmission plant. Look at the brakes; make note of their size and action. Then after you have seen all these and numerous other points, remember that this car is manufactured, not "assembled" by the BUICK COMPANY.

Demand value received for your money. Whenever you consider purchasing a car, remember that the BUICK asks a price that you are justified in paying.
