The graduation exercises of the Lincoln county eighth grades were held at the Keith Wednesday afternoon. The class was composed of two hundred and four boys and girls from different parts of the county, one hundred and fifty of whom were present and received their diplomas. A very enjoyable program of fourteen numbers was rendered by pupils of the different schools, each number receiving generous applause from a most appreciative audience. The diplomas were tied with the county color white, and the color of each class. They were presented in a neat speech by Miss Anna V. Day, deputy state superintendent. The invocation and benediction were given by Rev. Charles Chapman. The seating capacity of the Keith was taxed by the large number of parents, friends and relatives of each class.

For Sale. Milo Maize. W. W. Birge.

The attendance at the Junior Normal has greatly increased since the first of the week and the classes are entering into their work with interest and energy. Each period lasts forty-five minutes. The first bell rings at 8:00 o'clock, the second at 8:10 and the study bell a few minutes later. The afternoon session begins at 1:15. At the chapel services Wednesday, two beautiful solos were rendered by Glen Mann and Miss Anna V. Day, assistant state superintendent, gave an instructive talk of thirty-five minutes. With the exception of Mr. Dickerson and Miss Mollyneaux the instructors are all here for the first time and the manner in which they have taken charge of their work them to be very efficient. The student body is composed mostly of former students although the number of new attendants exceeds that of former years. W. J. Fowler, formerly state superintendent who now edits the Nebraska Teacher spoke yesterday morning, giving an enjoyable and helpful lecture. Mr. Gramlick of the Lincoln School of Agriculture also held their attention in a splendid talk in organized agriculture and at 3:00 o'clock in the afternoon gave a demonstration in the yards of stock judging.

Chalmers Creed.

To build always good cars.

To build beautiful cars.

To build better cars this year than last, better next year than this, so that from season to season Chalmers cars may continue to merit their well-won reputation of unusual value.

To be progressive but not radical; conservative but not standpattish, adopting new features if they are improvements, but never offering anything to the public that we have not thoroughly tried and proved.

To speak well of competitors or else keep silent. To make only honest statements in advertising and salesmanship.

To conduct our own affairs so far as we may in the light of what is best for the automobile industry as a whole.

To stand behind our product and make good our guaranty.

To gain the confidence of those from whom we buy and to whom we sell, by courtesy and the Square Deal.

To strive always to lead and honorably to win, realizing that success is in the striving though wealth and fame are in the winning.

This is the Chalmers Creed.

THE JUNE BRIDE

What Shall the Wedding Presents Be?

A Monarch Malleable Range is the ideal present. It is a practical present and one that will stand more use and even abuse than any other article of house furnishing. It is not easily broken, never goes "out of style" and is a source of pleasure and comfort for years and years to come. The MONARCH might be called a profitable present as it actually saves its first cost in the fuel economy which it makes possible. There is nothing that is more conducive to a happy home life than a

MONARCH MALLEABLE RANGE

Its construction is such that every ounce of fuel does its full duty—there is no waste with the MONARCH. Stove putty, that substance used in cheap ranges to stop up the cracks, is not to be found in the MONARCH. By its use a range can be cheaply put together and look well but "beauty is but skin deep." Stove putty is not used in the MONARCH as there are no cracks to fill. The MONARCH is substantially constructed in every way. It not only pleases at first, but continues to please for many years. That's why it is called the "Stay Satisfactory Range."

It's economy. The MONARCH is economical in many ways. It saves money, time, labor. Its polished top saves the housewife from the dreary task of blacking a stove. No smutty hands—no soiled aprons and dresses—no black bottoms of pots and pans with a MONARCH in the kitchen. Call and see it and you will realize why we heartily recommend it as a most suitable present to the June bride.
