Weather Observer Hardin holds out no hope today for rain within the next twenty-four hours, and he can promise but little in the way of lower temperature. Yesterday hottest point was 98, while a year ago it was 89. The minimum last night was 61, not too warm for a good rest and invigorating sleep.

Chief of Police Otten serves notice that he will begin the extermination of unlicensed dogs next Monday. He will engage the services of half a dozen deputies in order that the work of execution may be rapid and the unpleasant work ended at as early a date as possible. Owing to the large number of unlicensed canines a special tract of ground has been secured in which to bury them.

The railway commission has refused to issue an order against the Union Pacific railway in the Lexington matter in which citizens of the town complained against the company taking on and discharging passengers on the second track from the depot, which would compel them to cross the first track to get to the depot. The citizens, among other things, asked that if no other change was made, that the company be required to erect a shelter of some sort for those passengers compelled to stand on the outside of the second track. The commission, however, made an order that the railway company should have some system whereby the passengers could be notified when trains were approaching.

Chautauqua Notes.

The big event in the summer at North Platte is just about to begin. There never was a year when things looked so good for success. The idea of failure does not enter one's mind when he scans the program and then sees the big auditorium tent looming up larger than ever. The grounds are being gotten ready and the tickets are being sold. The deficit of last year and the year before and the year before that has made the officers and stockholders so determined that they will not let this happen again that it looks good for the future of the Chautauqua. Last year's crowd and the final deficit has convinced the directors that the trouble has been not that we did not have a large enough attendance but that we are getting too much for the money. Since we could not be satisfied with less in quality it became necessary for the price to be raised. The season tickets we advanced a little and the single admissions were advanced a little. With equal patronage the income will be enough larger to satisfy the bills. Very few are kicking. They want to pay their just proportion of the expense. When the concert begins on Sunday afternoon it looks like we would have a good crowd and from then on the interest will increase. Just look ahead for Long, Landon, Thompson, Cooley, Tihen, Fletcher, Reno, Miller, Joy, Bonnergee, McBrien and the rest. They will make good.

You cannot afford not to buy a season ticket for the Chautauqua. The evening admissions are 50 cents. The season tickets at \$2.50 each. You can attend every meeting when the giant programs are on and you will have saved \$1.50 by buying season tickets. If in addition you can attend the two Sunday afternoons you will have \$2.00 saved. For each other afternoon you can attend you will have 25 cents saved. Why resist longer when at the same time you will be helping the whole movement in a substantial way.

The concession for selling refreshments on the grounds will not be let to any one exclusively. Anyone may es-

tablish a stand and sell refreshments for \$3.00 a day. See the Grounds Superintendent for location and for renting tents.

Afternoon sessions are 25 cents. Evening sessions are 50 cents.

A Statement.

President Temple makes the following statement as to why the evening admission to the Chautauqua was raised to 50 cents this year:

This is the fourth Chautauqua we have held; every meeting has cost the stock holders from \$500 to \$800, and when it is figured that there are only about 60 stock holders, it is seen that it has been quite a burden, however, every year, it has been voted unanimously by said stock holders to hold another session next year.

Now, however, there is only 31 per cent of the stock that is subject to assessment, and if there is any shortage this year it will exhaust the stock. And if there has to be an assessment this year to pay expenses, the present stock holders can not be asked to assume the burden of carrying on the work any longer.

If every one in town that is interested in the Chautauqua work were stock holders, we would not care whether there was a small shortage or not because then it would be divided up so that it would not be a burden to any one.

As to the attractions, we have some of the best on the platform and many of the attractions would cost from \$1.50 to \$2.00 if put on at the opera house, consequently why should you object to 50 cents at the Chautauqua.

If, however, any one wishes to attend the chautauqua and only expects to attend one-half the time, it will pay to buy a season ticket. For \$2.50 it gives you access to the grounds at all times and you take in twenty-four attractions which will cost you only ten cents each.

Do not let anyone tell you that the chautauqua association is trying to hold you up. We are simply doing what we have to do in order to con-

tinue holding chautauquas, and I believe we all want them continued. When the solicitors call on you, buy season tickets, or if your family is large, buy a family ticket and show the stock holders you wish to assist them in continuing this good work. C. F. TEMPLE, President.

The house of representatives yesterday adopted by a vote of 222 to 1, articles of impeachment against Judge Robert W. Archbald of the United States commerce court. Representative Farr of Pennsylvania cast the single vote against the bill of impeachment.
