### No Sunday Mail.

The postoffice bill which passed congress last week provides that no mail shall be delivered through the boxes on Sunday in any first or second class office. This means that in the future we shall get no mail on Sunday—the doors of the postoffice will be closed all day.

Inasmuch as some of the patrons of the local office have rented boxes for the express purpose of getting Sunday mail, and have paid the box rent until September 30th, Postmaster Davis wired the department last evening asking whether he should observe the law instantly or wait until the expiration of the time for which the box rent has been paid. At this writing he had not received a reply.

### Successful Convention.

The convention of the Lincoln county Sunday school association held at the Presbyterian church Saturday and Sunday was the greatest gathering of Sunday school workers ever held in the county. The total attendance of delegates from the schools of the county numbered nearly three hundred, and at the Sunday morning session of the convention the audience was estimated at eight hundred. Three sessions were held each day, and the many phases of Sunday school work was treated by able speakers.

As a result of this convention the delegates were enthused, and the work in the county will be pushed more energetically than ever before.

### Commissioners Allow Bills.

The county commissioners are in session this week, and a large part of their time will be occupied in auditing and allowing claims against the county, of which there is quite a large accumulation. The disbursing of this money at this time will not come amiss to farmers and business men, not that money is particularly scarce, but rather it is the one thing we all feel we always need.

The Lincoln Journal's Washington correspondent says: The great Sixth district, with its large area of public land, has as its representative Mr. Kinkaid, and he has had a finger in most of the numerous bills that have been passed affecting public lands. The list of his bills is long, including \$100,000 for resurvey of public lands, the three year homestead bill, allowing settlers one section, and enabling married women who were single when making entry to make proof after marriage; a bill to protect small dealers in butter with respect to water adulteration; a bill opening Fort Niobrara lands to settlement; a bill giving patents to reclamation entrymen the same as on dry land entries and reducing the requirements for the payment of water rights; a bill appropriating money for growing trees on the Nebraska national forest reserve; an amendment to one of the appropriation bills to provide for placing a herd of buffalo, elk and deer in the Nebraska game preserve. Some cuss stole O. E. Elder's hunting dog last night. The commission of such an act a few days in advance of the opening of the chicken season, has naturally made Elder somewhat ruffled. "I am confident", he says, "that the dog will be returned about about Christmas, but who in the h— wants a hunting dog at that season of the year."

Leo Pass and three other ball players of Gothenburg went to Lisco Saturday morning and played with the Lisco team in two games against the Oshkosh team.
