Methodist Changes.

At the Methodist conference at Scotts Bluffs last week, Rev. Gaither, who has been stationed at Lexington was selected as superintendent of the North Platte district, vice Supt. Chamberlain who had served the maximum time and was assigned the pastorate at Ord. Rev. W. S. Porter, who had served his allotted time here, was assigned to Orleans, and Rev. Cram, who was stationed at Orleans, comes to North Platte as the resident pastor. It is understood that Supt-elect Gaither will make North Platte his headquarters.

"A Romance of the Underworld."

"A Romance of the Underworld," will be presented at the Keith next Friday evening, with Holbrook Blinn in the star role. The story deals with the refusal of Richard Elliott, a park inspector for the city of New York, to accept a bribe from a city contractor, that a crooked deal may go through and the consequent attempt to railroad the young man to Sing Sing for this refusal, as well as for his denunciation of the contractor for daring to aspire to the hand of his sister, Dora Elliot. The brother believes that justice must triumph and therefore does not heed the threat that emanates from O'Leary, the contractor, but when arrested, sent to prison and nearing sentence, he realizes how vain was his trust. Through the efforts of a young newspaper man, an aspiring lawyer, who takes the case through his love for Doris, Elliott is finally given his liberty, his good name cleared and his enemy sent to the toms where he is detained for perjury. That the situations are stirring goes without saying.

School Rooms Crowded.

The unusually crowded condition of the schools of this city has resulted in a somewhat complex situation which is causing the school authorities considerable worry and annoyance. At a special meeting of the board of education, Superintendent Tont gave a report as to the number of students in the most crowded grades and prompt action was taken to relieve congestion. In the small building of the east school was found the greatest difficulty for these small pupils could not go far from their own school to attend any other. In some cases where pupils had to sit on the front seats without desks, parents sent cracker boxes to school and these were utilized for desks. In some cases nearly sixty pupils were crowded into a room designed for thirty. In the high school auditorium there are 164 seats. We have 230 enrolled. Every seat in room "K" has been taken and extra chairs have been placed in the rear of the room. The remainder of the high school students are seated in the commercial room in the basement. On the second floor there are two grade rooms and these each have over fifty in attendance. By sending the eighth grade from the central school to the Washington building and bringing the fifth grade from the east school to the central we have taken care of all of the pupils in the first ward. In the Washington school the assembly room was divided and another teacher was added, making eight in that building. Even now the eight rooms of this building are crowded to the limit. In the Lincoln school the enrollment is about normal with new pupils coming in every day. Supt. Tont is doing his best to get every child a desk and expects to reach this end before the week is over.

Mrs. T. W. Austin will leave tomorrow for Sebatha, Kans., to visit relatives for a couple of weeks.

To the Insuring Public:

In justice to Bratt & Goodman, who are agents for the St. Paul Fire & Marine Insurance Co., of St. Paul, Minn., I wish to state that I insured my automobile with said agents, which I recently lost by fire, and without a word or question I was paid \$1000 for total loss, being the amount of my policy, and for the prompt and satisfactory manner in which Bratt & Goodman have settled this loss and other losses I have sustained, I most cheerfully recommend them as the best insurance agents I have ever known to have properly insured with.

This statement was unsolicited on the part of Bratt & Goodman.

The Columbus Telegram tells of a record run for a train between Omaha and Grand Island, made recently by Union Pacific No. 15, pulled by one of the monster new engines just put into service. The train left Omaha at 5:10 p. m. one hour and twenty minutes late, with fifteen heavily loaded cars. Its schedule provides that it shall arrive at Grand Island at 8:02 p. m., after being on the road four hours and fifteen minutes, an average of thirty-four miles an hour. On this occasion No. 15 clipped of the 146 miles in two hours and fifty-two minutes, arriving in Grand Island three minutes ahead of schedule. The average speed was fifty miles an hour, including time taken for stops at Fremont, Columbus and Central City.
