WILCOX DEPARTMENT STORE

Big Lot of Wheat.

Threshing was finished this week on the Buchanan & Patterson section—occupied and farmed by A. R. Christensen—seven miles southwest of town, and the yield from the 300 acres of wheat was six thousand, six hundred and thirty-six bushels, or an average of over twenty-two bushels to the acre. This, for so large an acreage, is certainly a good yield, and the quality of the berry is first class. It will require eleven cars to transport this wheat to market, and hauling it to the railroad either at Hershey or North Platte will be no small task.

"Rose of Panama" Tonight.

That delightful operetta, "The Rose of Panama," will be presented at the Keith tonight by a company of sixty-five people headed by the clever French prima donna Chapine, and including a fine orchestra. The play abounds with catchy music, there are some twenty songs and each is a gem, and there is delightful comedy interwoven with a romantic story. The production will be seen here with all the magnificent costumes and elaborate scenery that were provided for the engagement at Daly's theatre, New York.

A Classy Store.

The McDonald clothing store in the course of a few days will be one of the finest and best equipped in the way of furnishings of any in the city. Workmen are now placing in position a carload of oak finished cases, shelving and counters, and hereafter all goods will be free from dust and easily to handle. Certainly the interior of the store will present a handsome appearance and employes can handle the business more expeditiously and satisfactorily. These new furnishings together with the heating plant recently installed and other improvements made, make the McDonald clothing store a model one.

Her maid of honor Miss Elizabeth Meyers wore a pale blue dress and carried pink roses.

Curiousities of Sound.

There are mysteries in the transmission of sound that have not yet been fathomed. For example, the guns of the Orion are said to have been heard ninety-seven miles away, though inaudible to those much nearer, and it is on record that the reverberation of the battle of Waterloo reached many places in Kent, though General Colville and his detachment heard nothing of it a dozen miles away. Whistles, hoots, sirens and noises of all kinds have been tested by the Trinity House in order to find a noise which will be infallibly heard for a certain distance in vain. They may all be heard for a dozen miles and be inaudible at half a mile. Many of the disasters about our coasts are doubtless due to that mysterious "soundless zone" in which the human ear cannot catch the warning. But no one has yet discovered the reason of that deaf spot or propounded its varying locality. — Westminster Gazette.

When the Raven Was Milk White.

According to Mohammedan belief, the ravens which Noah took with him on the ark were both pure white. When the ark had been riding the billows of the flood for thirty-three days one of the gaffers died, and the carcass was thrown overboard. No sooner had it struck the water than the ravens pounced upon it. For this Noah cursed them, and since that day they have been black.

RUPTURE.

We have a cure for rupture without resorting to the danger, pain and discomfort of a surgical operation. We are the only reputable physicians in this line of work who will take such cases upon a guarantee to cure, or make no charge. You may deposit the money in the bank in your own name and when you are well you instruct the bank to pay us. We have adopted this method because so many have been swindled by quacks and fakirs. Not one of them will allow the patient to put the money in the bank and pay when a cure has been made. When taking our treatment patients must come to our office once a week they can return home the same day attend to their business or occupation without loss of time. In order to give the people of this vicinity an opportunity to take our treatment without the expense of going to Omaha, one of us will be in North Platte every Thursday. Write to or call on
