

Your Grandfather Rode in a Horse car--

a slow moving vehicle adequate in its day, that has disappeared because it could not meet the modern problem of carrying many people over long distances.

Your Grandfather had a big heavy Watch--not much of a time-keeper and very expensive in upkeep. Perhaps for sentimental reasons you are wearing it today. You are wrong. You are risking the loss of a valued heirloom without any resulting advantage. On the contrary, hindered by its inaccuracy, you are handicapped in your use of many other modern facilities. Put your grandfathers watch where it belongs--in a safe place.

The most important feature on an automobile is the steering gear proposition and yet how desperately ignorant the motoring public seem to be upon this very important subject. The lock steering gear on the Studebaker is worth its weight in gold in comparison to all other cars about town as to safety and easy operation.

"Alias Jimmie Valentine," one of the cleanest and strongest plays yet presented in North Platte and interpreted by a very capable company, drew a meagre audience at the Keith Saturday evening. The play and the company merited a big audience. It is somewhat discouraging to Manager Stamp to book plays of merit and have them accorded a patronage that scarcely brings in sufficient to pay the stage hands.

Mr. and Mrs. Geo. A. Austin, who are just home from a month's visit in Fall River and Boston, had a very enjoyable trip. Among the points visited was Newport, the summer home of the millionaires, whose palaces and the grounds which surround them is a sight not so soon to be forgotten. Another very enjoyable feature of the trip was the ride by boat from Fall River to New York. The friends visited are in affluent circumstances and they showed Mr. and Mrs. Austin every attention. Mr. Austin was much benefited by the trip; his nerves are steadier, his eyes stronger and he goes into practice for the annual Thanksgiving shoot with the determination that Millard Hosler, John Den and some more of the egotistical shooters will have a turkeyless Thanksgiving dinner.

The second track was cut into last week between Kimball and Dix. The double track west of Kimball running into Cheyenne will likely be finished before the first of the year. With that additional track finished it still leaves the track between Chappell and Dix to be completed.

Lem Bailey feels somewhat aggrieved over two statements recently made by The Tribune; one that he had been fined for shooting prairie chickens out of season; the other that he would promote a boxing exhibition Thursday of this week. To both he pleads not guilty, and rather emphatically too, and we accept his pleading as correct. Our authority for the chicken item was a local peace officer; the other item came from the lessee of the opera house, both of which at the time seemed good authority.

Statistics of Episcopal Church.

Seven years ago last Sunday Rev. Chas. F. Chapman began his duties as rector of the Episcopal church in this city, and at the morning service he presented many interesting statistical items concerning the work during his rectorship, from which the following excerpts are taken.

During the seven years the receipts from all sources were \$27,699, of which \$4,407 was earned by the guild; the total amount \$1,678 was appropriated for missions, and \$1,203 for local charity.

The net gain in the number of communicants was 142, which, we should judge, is a most excellent showing.

During his seven years' rectorship Mr. Chapman delivered 1,111 sermons and addressed 174, of whom 87 were males and 87 females; officiated at 59 weddings and 44 funerals and of the deaths just one-half were members of the congregation. Eight or ten of the deceased met death through railroad accidents, or while in the employ of the Union Pacific.

In his address Mr. Chapman highly complimented the choir for its excellent work and paid a tribute to F. E. Bullard for the interest he displays in church work.

Rev. Mr. Chapman should feel encouraged over the progress the local church has made under his rectorship.

Business at Telephone Office.

When the operator at the local telephone office does not respond to your call as quickly as you think she should and you say "she is so slow," stop to consider that each of the five operators on the local lines during the busy hours of the day answer an average of 150 calls per hour.

Last Thursday the number of calls on local lines were 4,888 and on toll and long distance lines 180, a total of 5,068. Friday the local calls numbered 4,741 and the toll lines 190, a total of 4,931. There are 670 town subscribers, and fifteen farm lines, with 187 subscribers or stations, radiate from the local exchange. The traffic force of the local office is composed of a chief operator, five local operators, two toll operators and one night operator.

Mrs. Hascall Passes Away.

The deceased spent her early girlhood days in North Platte, moving with the family to Omaha in the '80s. In 1887 she was married to M. T. Hascall, and in 1899 Mr. and Mrs. Hascall returned here and remained for several years. Mr. Hascall being employed as stock inspector. Editor Tribune--Coming down the street yesterday afternoon--a fine sunny day--I saw as many as six young ladies who looked strong and healthy, but they each wore a large, rough finish, heavy coat, while I was comfortable in my shirt sleeves. Can you explain this to my young men who are looking for desirable life companions?
