Why I'm a "Bull Moose." Why You Should Vote the Progressive Ticket.

Honest intent with weakness never made a man. The emblem of the Progressive Party (the Bull Moose) is quite as honorable as either the "brazen ass" or the monster brute elephant. The "bull moose" carries no excess baggage in front, does not wear his wings on the side of his head, nor kick out from behind like a mule. Hence to be called a "Bull Moose" is no dishonor.

The progressive party represents the best interests of the people. It is championed, propagated and vouchsafed by the most honorable, best posted, and greatest men of our nation. It is a preponderance of evidence within itself to all the people. Read its platform; compare it with any of the others, and you will say that it is the greatest and best platform ever given to the American people. It represents a just and righteous cause to a great and industrious nation.

During my entire life and business career I have never before taken any concerted interest or action in politics and never before since Abraham Lincoln's day has the people of this country been face to face with conditions as they now exist. Politics is the appellation of the most monumental, and greatest business of the twentieth century. It is a vast corporation. A federation of all products of the soil, manufactured products, business, labor and capital. It is an amalgamation of every resource of this United Kingdom of which every man and woman is a stockholder. In this vast business of political government, each one and all of us own equal rights.

It is for every voter and his duty to exercise his right of franchise. The rich and powerful give to the cause of politics not only their vote, but their time and energy, as well as vast sums of money. What does the common people give? Why my friend, not hardly their votes. I ask you, is it any wonder that the American people are governed by Boss Rule and Corporate Greed. Is it any wonder that the laboring man and woman are forced to work 12 to 16 hours a day? and the farmer takes what he can get for his products and both pay the other fellows

prices for what he buys. You are offered this year an opportunity to divest yourself of these conditions, to eliminate the old and to put on the new. The progressive party offers you an avenue of escape from the worn out and thread bare promises of the two old parties if you will accept it. This is not a time for petty prejudices, but a time to act. The progressive party has come to stay. It is destined to be the people's choice for it is logically "The People's Party." The greatest argument against the leader of the progressive party and one of the greatest and most wonderful men this nation has ever known, and the argument most frequently heard is "The Third Term." This is the silliest of all arguments of a national campaign which has contained much silliness, and one not worthy of consideration.

There never was a public man in closer communion and more in sympathy with the people's cause than Theodore Roosevelt. This is vouchsafed by all the nation's great men and more so, by those who know him best.

I would most earnestly call your attention to our candidate for the U. S. Senate George W. Norris, a more conscientious, just and honorable man never lived. He is a man of the people, for the people. His good work while in congress, his ability, his character and his large experience, all serve to qualify him as the right man and the people's choice, he is our friend, vote for him.

Frank Armstrong, the good old honest, square and level headed Frank. A farmer and one of the largest cattle feeders in the state. He generally gets what he goes after. He is not a professional politician but a practical and successful farmer, stockman and business man. You need him and he is going to be elected. He will help you. Every farmer in this district as well as every laboring man should vote and work for him for congress, from this the 6th congressional district. Don't forget Frank Armstrong for Congress.

Yours for better conditions, more prosperity, cleaner and more respectable politics.
