

A Voice

Sometimes we get a little discouraged, and feel that what we say here may be only a "Voice that crieth in the wilderness." It is so difficult to convey to you the enthusiasm we have for the magnificent collection of jewelry, silverware, watches, etc., that we have laid out here for your inspection. Of course, the fact that we are selling more goods every month than during the corresponding month last year shows that you believe in us, and we are grateful and appreciative. But we would like more visitors—those who come just to look things over for a possible future purchase. There is no obligation to buy, no one here would dare to urge you. We want you to come and see, and then sometimes you will buy, we know.

Will have on hand and will take orders for brass craft articles from now until Christmas. Any one interested in same call at the house. Mrs. I. W. Van Doran, 901 West 2nd St. tf

At a meeting of the Rebekah Lodge Friday evening an election of officers was held as follows: Noble grand, Mrs. Irving VanDoran; vice-grand, Mrs. J. G. Beeler; recording secretary, Mrs. Fred Perrett; financial secretary, Mrs. Sam Van Doran; treasurer, Mrs. Geo. Prosser. Delegate to assembly at Lincoln Mrs. Fred Ginn.

Mr. Peterson, of Omaha, spent Saturday in town and organized a local committee of the safety organization of the Union Pacific. This committee, composed of twenty members is made up from the various departments, and the object to have each member make suggestions as to the avoidance of possible accidents and the safe-guarding of the traveling public as well as employees.

Bring us your old razor blades and for 24 cents we will have them resharpened as good as new.

STONE DRUG CO.

The Sterling foot ball team met defeat at the hands of the local high school squad Friday afternoon on the local grounds. Three hundred spectators witnessed the game and supported the home boys in their splendid work. The score stood 58 to 0 at the end of the second half and from the first play North Platte showed their knowledge of and skill in playing the popular game. Norris showed himself master of the game in the first quarter and as the game progressed distinguished himself still more by his brilliant plays. Lincoln and Ryan deserve special mention for their good work. Ryan playing one whole quarter with a broken collar bone. The victory is one to be proud of owing to the fact that the Sterling team has been known as champions of Colorado and had the reputation of being difficult to defeat.

Evidence of Theft.

In cleaning up rubbish in his carpenter shop yard on west Sixth street Saturday R. D. Thompson found two boxes containing felt shoes. The boxes had but lately been deposited in the yard and the contents were new and unused. The supposition is that the boxes were stolen from some store and the thief at the time supposed he was taking leather shoes. Having no use for the felt shoes, he discarded them.

Willis Soon to File Estimate.

Engineer Willis, who was employed by the Chamber of Commerce to make an estimate of placing the South Side ditch in condition to carry water, will file his report within the next week. Mr. Willis made a complete examination of the ditch week before last, going from one end to the other and carefully studying the requirements of the necessary flume across the South Platte river. When this report is filed it will be submitted to the land owners under the ditch for their consideration.

Suggest Banquet for Team.

John E. Evans, who is not much of a foot ball enthusiast, but who believes in recognizing merit, suggests that the business men of the town tender a banquet to the high school foot ball squad as a recognition of their splendid work this season. The Tribune heartily falls in line with Captain Evans' suggestion. To defeat all opposing teams and that, too, by decisive scores, ought to be sufficient to create pride within each resident, and a little glorification meeting would be proper.

Will Increase Power Plant.

Report was current a month or so ago that the Union Pacific would install an electric plant to furnish power for its various needs at this terminal. This, however, seems to have been incorrect as the officials have given Manager Walker assurance that they will continue to purchase power of the local plant. With the new terminal improvements the company will need much more power than at present, the new coal chutes alone requiring fifty horse power. Manager Walker will add to the equipment of the plant an additional direct drive engine and dynamo of 300 kilowatt capacity, thus nearly doubling the present output of current energy.

BRATT & GOODMAN

have a five gilt-edge, first mortgage loans netting seven and eight per cent semi-annual interest in sums of \$300 and upwards on two to five years' time. Nothing better or safer for your idle money.

Harrington Organize Parades.

In a recent letter to a North Platte friend M. C. Harrington, of Denver, writes:

"I pulled off a parade here last Sunday, Oct. 27th, where I had 10,000 men and boys over fifteen years of age. It took me a week of hard work to complete the plans of the organization; 10,000 people marched from their respective parishes to Fourteenth street between Broadway and Arapahoe at two o'clock, and at two-thirty the entire march of 10,000 people led by eight or ten bands were marching in perfect order and every man in his proper place. The army officers who viewed the march of this little army and saw the swift dispatch in which they were formed and handled, were loud in their praise of the superb manner in which they were handled. It was no easy task to handle 10,000 men and boys so as to form them in one position and march them in perfect order as formerly outlined, within a period of thirty minutes. General Baldwin, a retired army officer, I heard, expressed himself as follows: That it was one of the most remarkable feats he had seen performed in his experience. At one minute to two o'clock there was not a soul in sight on Fourteenth street that was to participate in the parade. At exactly two-thirty over 10,000 people fell into their positions from the side streets and the army was on the march without a hitch or a break in the proceedings."

For Sale.

Pure bred Duroc Jersey Hogs, both sexes, all eligible to registry, prices reasonable. Inquire of or address, Blankenburg Bros. North Platte, Nebr.

Mrs. George Rueber and children are expected this week from Grand Island to make their home. Mr. Rueber has been employed with the Hartman cigar factory for some time.

Opportunities for All in California.

Whether you are looking for a place to retire on small farm or orchard tract, or if you are seeking a business location, California offers you great inducements. The climate varies but little and the land is never idle—some crops ripens every season. Three crops from the same land in one year is not unusual. With the increasing farm population, new industries are needed to turn raw products into manufactured goods. It is to your interest to investigate the possibilities of this state with a view of selecting a location here.

ROUND OAK BASE BURNER

The Round Oak has 42 per cent more radiating surface than any other base burner.

The one real advance in base-burner construction in 20 years is the Round Oak.

The Round Oak is the only base burner that gives practically all its heat into the room instead of sending it up the chimney.

Up to 1908 there had been practically no improvement in base burners for 15 years.

That year the Round Oak base burner was put on the market with new additional flue heating surface, giving 42 per cent more efficiency than its nearest competitor.

Since then the other fellows have been scrambling mightily to catch up, but they are a long way in the rear.

Let us show you the good points of this wonderful heater.

This means smaller coal bills, and more heat.

See this Stove in Our Window.

Derryberry & Forbes.
