

Perils of Overdelicacy.
A bridegroom gave his best man an envelope.
"Hard it to the parson after the ceremony," he said, "but don't do it ostentatiously."
The best man followed instructions, but it seems that he performed his task too covertly, for the father of the bridegroom, after the pair had departed, believed that an omission had occurred and quietly pressed a banknote into the minister's hand. But he also was to secretive about it, and before the party broke up the bride's brother felt called upon to draw the minister aside and thrust a \$10 bill upon him.

As Women Play the Game.
Two Kansas City sisters were making a round of calls a few days ago. There were many to be made, and whenever there was nobody at home and cards could be left with the maid there was that much gained. One of the sisters smiled contentedly when the callers, as had happened several times that day, were informed that the prospective hostess was not at home. The other sister repressed the smile severely.
"You mustn't look so pleased when we don't find them at home," she said, as they went down the walk, "they may be watching us out of the window."

Demands of Trade.
"It would seem a flagrantly clear case," said the magistrate, adding, to the burglar who had been held before him, "What have you to say for yourself?"
"Not much, your honor. But I hope you can give me a short sentence this is my busy season."—Judge.

L. C. Smith & Bros. Typewriter
(Ball Bearing—Long Wearing)

In buying a typewriter you want a satisfactory answer to three questions:
What will it do for me?
How well will it do it?
How long will it do it?
By answering these queries with the needs of the typewriter owner and user in mind, the L. C. Smith & Bros. Typewriter Company has attained the front rank in the typewriter field.

Some people think that a typewriter is a typewriter and that in all there is to it. Machines may look alike but there is a lot of difference in efficiency.
The new Model Five is built not only for straight correspondence but for tabulating, billing and in fact for every service needed in the average business.
Its ball bearings at all points where friction develops through action, permit the adjustment and insure correct and accurate typewriting.

We would like the opportunity to tell you more about it.

Your Opportunity is NOW
In the Province of Saskatchewan, Western Canada
Do you desire to get a Free Homestead of 160 ACRES of that well known Wheat Land? The area is becoming more limited but no less valuable.
NEW DISTRICTS have recently been opened up for settlement, and into these well-irrigated areas are now being built. The day will soon come when there will be no more Homesteading.
A few of the current Saskatchewan farms for sale are: 100 acres, 1000 acres, 1600 acres, 3200 acres, 6400 acres, and 12800 acres. Today I have 160 acres of wheat, 320 acres of oats, and 32 acres of flax. Not bad for six years, but only an instance of what may be done in Western Canada in Manitoba, Saskatchewan or Alberta.

RELIC FOUND IN INN

Ancient Bible Discovered in Building at Columbus, Ohio.

Records Birth of Nine Children of its Owner, Mary, Wife of Christobal Meyer—is Dated Philadelphia, 1790.

Columbus, Ohio.—An interesting historic record has been found in the ruins of the old Franklin building, High and Cherry streets, site of Columbus' first public inn, but now in process of demolition under orders of the state fire marshal, who regarded the structure a menace to occupants. The relic was found by W. H. Lever of 276 South Wall street, under the crumbling wood of the first floor. It was an old bible, containing the Psalms of David "in meter."
It declares itself to be "the version approved by the church of Scotland," and was printed by William Young, bookseller, 52 Second street, the corner of Chestnut street, in Philadelphia. Underneath this statement is the date "1790," showing the work to have been printed 122 years ago. It is yellow with age.

Evidently it was the property of Mary Farmer, the daughter of William and Jane Farmer, who was born in 1738, according to the carefully written family records it contains. Records of the births of nine children of Christobal and Mary Meyer, early settlers and pioneers. These family data read in part as follows:
"Elizabeth Meyer was born on Monday, December the 25th, in the year of our Lord 1801."
"Mary Meyer was born on the third day of December in the year of our Lord 1803."

The records continue to show the birth of Nancy Meyer in 1805, William Meyer in 1798, John in 1794, Andrew in 1796, Charles in 1807, Samuel in 1809 and Deborah in 1812.
On the title page appears the following:
"Bible and Psalms of David 11 Metre, translated and diligently compared with the original text and former translations." In spite of its age the relic is easily legible and is well preserved. Its historic interest makes it a valuable find. The old Franklin building, which preserved the relic beneath its timbers for more than a century, was not only the first hotel in Columbus, but also the most portentous frame building erected in this part of the country. Before its construction practically all Columbus structures and abodes were made of logs.

Some months ago the deputies of the state fire marshal inspected the building and found it to be so badly worn with age that it constituted a menace to its occupants. It was ordered destroyed, but the orders were for a time resisted owing to the historic character of the building. Recently the state officials were obeyed and the building wrecked.

SLOPE CAVES; TRAIN IS LOST
Ten Wagons Sucked Into Chasm, but Mule Saves Driver From Death.

Shamokin, Pa.—John Stenchock and Willie Burns had a thrilling escape from death as they were completing a shift at the Natalie colliery. They started from the No. 2 slope with three mules attached to ten wagons. Stenchock rode the leading mule, while his companion sat on the third animal. A cave-in from underground working occurred.
Hearing the ground break Stenchock looked back and saw the ten wagons disappear with the rear mule struggling to retain its footing. Stenchock whipped his mule into a gallop as the rear mule was sucked into the chasm. Burns slid over the animal's head, and, grabbing the traces of the second mule, was pulled clear of the cave-in.

NEW MUSEUM FOR CLEVELAND

Miniature Model Shown of Structure to Go Up in Wade Park, in Ohio City.

Cleveland, O.—City officials and museum trustees were recently shown a miniature plaster of paris model of the new Cleveland Museum of Art, which will be built in the northeast part of Wade park. Work will be started at once and completion is looked for within two years.

Trustees of the will of John Huntington and Horace Kelley, each of whom left property to be turned into a fund for the erection of the building, are co-operating with a committee of city officials. The building proper will be 300 feet long and 150 feet wide, with a forecourt, formal garden and lagoon facing the main entrance.
As soon as the building is finished, thousands of works of art in private collections and many owned by the city will be placed in the upper floor, which will be devoted to galleries for statuary, paintings and collections of various kinds. The ground floor will be devoted to a lecture room and a space for extensive library and study and work rooms. The roof of the galleries of the second floor will be almost entirely of glass. The interior of the building and the octagonal rotunda will be of gray canyon sandstone. The material for the outside has not been selected.

TO CUT \$500,000 FORTUNE

Giving of Half a Million to Grandchildren of Winans Will Reduce All Bequests.

Baltimore, Md.—Following the settlement by which the executors of the estate of Ross Winans gave to the children of Prince De Beaux \$500,000, the Orphan's court has allowed \$25,000 as counsel fee to be divided between Maurice Leon, attorney for Prince De Beaux, the guardian of the children,

TO BE SAVED FROM EVICTION

Mrs. Otto Wagner's Practical Efforts in Behalf of New York's Poor.

New York.—While other rich women with nothing particular to do are busy in the suffragette movement or giving pink teas for foreign missions, we'll stop and take off our hats to Mrs. Otto Wagner of this big, silly, cruel city. Without any effort to attract public attention to herself, Mrs. Wagner has set in operation a real and original charity. She calls it the Antiection society. At present the society consists simply of Mrs. Wagner and some few of her friends whom she has called on for modest contributions of cash. There is, however, such a definite field for genuine charitable effort in the movement which Mrs. Wagner has begun that a permanent organization is being formed with the purpose of securing sufficient funds to carry out Mrs. Wagner's idea in a systematic way.

Every week a score of families in the poor quarters of New York are evicted from their homes—homes that are hardly worthy of the name, perhaps, but homes nevertheless. Frequently it is the duty of these officials to turn sick mothers, helpless children or aged people, with their poor belongings, out upon the sidewalk. The landlord wants his rent. Nothing else counts with him. Mrs. Wagner has arranged with officials of the sheriff's office to be notified in advance of every intended eviction. She has organized a committee among her friends to assist in the work of investigating each case, and where the failure to pay rent is due to sickness or other genuine distress to advance the small amount of money necessary to help the impoverished family out

and the local law firm of Marbury, Gosnell & Williams. The fee is to be taken out of the \$500,000 allowed to Mr. Winans' grandchildren.

It is understood the payment of the \$500,000 to the grandchildren of the millionaire will necessitate all the legatees giving up part of the money left them, and it will therefore cause a prorata diminution of the bequest of \$500,000 made to Miss Dorothy Bateman of Newport, a young friend of Mr. Winans.

Whether Thomas R. Winans, the son of the millionaire, who was cut off with a small part of the estate by the will of his father, will make a fight for a greater share of the estate is still uncertain.

MAY SAVE BIRDS FROM CATS

Kansas University Professor is to Recommend Legislation for Protection of Songsters.

Lawrence, Kan.—Prof. L. L. Dyche of the University of Kansas will recommend to the legislature changes in the laws designed to protect birds from the family cat.

"I know of no greater enemy to the birds than the domestic cat," Professor Dyche said the other day. "Legislation to protect all birds except those classified as 'game' and 'outlaws' would save the farmers millions of dollars each year. I believe it may be necessary to have a cat license law in Kansas."

TRAVELS TO COAST ON AUTOS

"Stowaway" From Indiana Found Inside Extra Tire on Car Near Los Angeles, Cal.

Los Angeles, Cal.—Henry Wheeling, twelve years old, of Crawfordville, Ind., who said he had ridden the entire distance on the rear of automobiles, was discovered at Pomona, 35 miles east of here, wedged into a large tire fastened on the rear of a transcontinental automobile. He was taken out, given a good dinner and a comfortable ride for the rest of his journey. The lad said he had not spent a cent on the entire trip, which required two months.

King George Superstitious.

An incident which occurred while the king was out shooting recently over the Hon. John Ward's preserves at Woolley shows that the monarch shares with many other persons the superstition about the number thirteen. The eight guns were joined at luncheon by five women of the party staying at Chilton, and the king not sitting down until Donald Harding, the acting agent upon the estate, was called in to make the number up to fourteen.—New York Herald.

FOLEY'S HONEY and TAR For Coughs and Colds

TO TUNNEL UNDER CHANNEL

Long-Delayed Franco-English Project is Once More Being Put Forward.

A tunnel between England and France beneath the English channel was first proposed at the beginning of the nineteenth century by Mathieu, a French mining engineer, says the Argonaut. Fifty years later the scheme was financed, but it was not until 1867 that it seemed that the project would be actually attempted. At that time there were a dozen or more plans for rail communication between the two countries. The accepted scheme was that of a tunnel bored beneath the bed of the channel. The estimated cost of the undertaking was about £10,000,000. Preliminary boring had been made, when the work was interrupted by the Franco-Prussian war. In 1874 the French and English governments resumed negotiations concerning the tunnel, leaving the matter in the hands of a joint commission. Failure on the part of the English company holding the contract for the work to receive sufficient funds resulted in the failure of the enterprise in 1880. Now the project is receiving some attention, a better feeling having been established between the people of the two countries.

Old Landmark Gone.

The Blaine schoolhouse in Mars Hill up on the hill, the one James G. Blaine honored years ago by giving a bell, which still hangs in the belfry, is no more. It has been converted into a storeroom and moved to another site. A good many bright boys and girls, now old men and women, graduated from this historical building, and no doubt there is a feeling of sorrow as the old schoolhouse leaves the foundation it was builded upon years and years ago.—Kennebec (Me.) A DOCTOR'S SLEEP

Found He Had to Leave Off Coffee.

Many persons do not realize that a bad stomach will cause insomnia. Coffee and tea drinking being such an ancient and respectable form of habit, few realize that the drug—caffeine—contained in coffee and tea, is one of the principal causes of dyspepsia and nervous troubles.
Without their usual portion of coffee or tea, the caffeine tapers are nervous, irritable and fretful. That's the way with a whisky drinker. He has got to have his dram "to settle his nerves"—habit.

To leave off coffee or tea is an easy matter if you want to try it, because Postum gives a gentle but natural support to the nerves and does not contain any drug—nothing but food.

Physicians know this to be true, as one from Ga. writes:
"I have cured myself of a long-standing case of Nervous Dyspepsia by leaving off coffee and using Postum," says the doctor.
"I also enjoy refreshing sleep, to which I've been an utter stranger for 20 years."
In treating dyspepsia in its various types, I find little trouble when I can induce patients to quit coffee and adopt Postum."

The Dr. is right and "there's a reason." Read the little book, "The Road to Wellville," in pkgs.
Postum now comes in concentrated, powder form called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown.

Instant Postum is convenient; there's no waste; and the flavour is always uniform. Sold by grocers—50-cup tin 30 cts., 100-cup tin 50 cts.
A 6-cup trial tin mailed for grocer's name and 2-cent stamp for postage. Postum Cereal Co., Ltd., Battle Creek, Mich.—Adv.

Millions of Red Cross Seals on Sale.

Over 80,000,000 Red Cross Christmas seals are now on sale in almost every large city and nearly every state in the United States. The proceeds go for the benefit of the anti-tuberculosis movement in the community where the seals are sold. So carefully has the sale been organized throughout the country that with the exception of the states of Florida, Oklahoma, Nevada and Idaho, Red Cross seals will be on sale in almost every city, town, village and hamlet in the United States and even in Hawaii, Porto Rico and the Canal Zone.

End of a Noted Folly.

The monocle has long since been out of fashion in England, and is soon to disappear from Paris, which has been its last stronghold. It was invented by a Dutch dandy, and its evil effects upon the eye were at once noted by oculists. The monocle first appeared at the congress of Vienna in 1814, when it was worn by its inventor. One folly, at least, has had only about a century of life.

A WONDERFUL DISCOVERY.

In this age of research and experiment, all nature is ransacked by the scientist for the comforts and happiness of man. Science has indeed made many strides in the past century, and among them—by no means least important—discoveries in medicine is that of Therapion, which has been used with great success in French hospitals and that it is worthy the attention of those who suffer from kidney, bladder, nervous diseases, chronic weak disease, migratory eruptions, etc. There is no doubt. In fact it is even evident from the big cure created amongst specialists, that Therapion is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men. It is of course impossible to tell sufferers all we should like to tell them in this short article, but those who would like to know more about this remedy that has effected so many cures, should send addressed envelope for FREE BOOK to Dr. Leo Clero Med. Co., Haverlock Block, Hampton, London, Eng. and decide for themselves whether the New French Remedy "THERAPION" No. 1, No. 2, No. 3 is what they require and have been seeking in vain during a life of misery, suffering, ill health and unhappiness. Therapion is sold by druggists or mail \$1.00. Fougere Co., 50 Beekman St., New York.
