A refreshing innovation in farce comedies is claimed for "The Girl From Tokio," in the more than even distribution of the company, thus requiring an evenly balanced company all through to portray the different humorous characters. The company is headed by Miss Julia Morton and Edmond Forde, both members of the stellar ranks who are said to have parts more suitable to their unique style of comedy than anything yet undertaken by them. The sale of seats yesterday was very gratifying which indicates that a packed house will greet this excellent company at the Keith this evening.
