only these who have paid the price.

Prof. Clark, superintendent of the Harvard schools, has been appointed dist W. superintendent of the industrial school at Kearney. The appointee is said to be a clean young man of commanding physique and pleasing temperament.

The impeachment of Judge Archbald, into business outside the realms of the in the open market. legitimate, may cause other judges to sit up take notice. There seems to be no exception to the saying that it pays to play fair.

A legislator down at Lincoln has introducted a bill limiting the speed of an auto in cities and towns to five miles per hour and fifteen miles in the country. This is drawing the lines tighter than public safety demands. Ten miles in town and twenty in the country ought to suit the most conservative.

Up to last Monday President-elect Wilson had not yet made a selection for and allowed on said dist. a place in his official family. Are we to infer that there are so many democratic statesmen that it is difficult to make a selection, or are they so few that suitable selections cannot be found?

Governor Morehead's dilatoriness in 6.50 and allowed on said dist. making state appointments is bringing down upon his head the cusses of the pie-hunters, who are awful hungry and 10 00 and allowed on said dist. grow more desperate as each day passes. You can't blame them much, however; they have been living on political husks for quite a while.

Among the bills introduced in the legislature Tuesday was one limiting the number of saloons in cities and villages to one for every 1,000 people. Such a law would not be half bad; the fewer saloons in a town the more easily they are controlled and with a limited number they would be more decently con-

voted down an attempted revocation of President Taft's order placing 30,000 fourth class postmasters under the classified civil service. Democrats joined with republicans in the vote. The Tribune is one who believes that all federal officers should be placed under civil service, thus removing them from politics, and it is probable that this will result within the next ten years.

Congressman Stevens, of the Third Nebraska district, says the people should rule, and practically endorses the plan to have postmasters in the larger towns elected by a vote of the people. It is noticed, however, that the candidates must be democrats. The plan, therefore, resolves itself into the sum of 34.45, which amount is not that "people rule," but that the settlement made. democrats rule, between which there is a vast difference.

Had the county commissioners accepted The Tribune's bid to do the county publishing at one-half the legal rate, instead of awarding it to two papers at full legal rate, they could have saved the taxpayers two or three hundred dollars. Eyidently this amount of money is too insignificant to deserve consideration from the commis- and bond approved. sioners. In these flush times individuals as well as county commissioners spend money as lavishly as do drunken sailors.

In the appointment of committees of the state senate, Senator Hoagland fared well. He is chairman of the judicjary committee, one of the most important of the many, and is also a member of the following committees: Apportionment, banks and currency, labor, irrigation, privileges and elections, public lands and buildings and railroads, all of which are important committees. At the formal opening of the senate Tuesday Senator Hoagland introduced the first bill, that of workingman's compensation. He also introduced six other bills the opening day.

James Hartman spent Wednesday in Lexington transacting business.

Mrs. Glen Fergerson returned home yesterday from a short visit with Paxton relatives.

Mrs. Johnson, of Tryon, who had been visiting her daughter Mrs. James shey, visited in town the fore part of Hartman, left for home yesterday.

Mrs. Hartwig and children, of Paxton, who spent last week with her mother, returned home Wednesday morning.

Ed. Lesiher former baker at the Enterprise Bakery returned to Lewellen Wednesday after spending several Will place it in any amounts from \$100 days with town friends.

Their Precious Postage Stamps. A few years ago a small procession

of French troopers triumphantly escorted a sergeant carrying two postage teresting. The story of the latter is interesting. The sergeant, belonging to the French contingent of the troops of occupation, arrived in Crete with a young Creole wife, whom had mar-tied while he was serving in a French colony. She brought him no dower in money, but a handsome marriage portion all the same, consisting of two postage stamps. These are rare specimens of Mauritian issues, and have been estimated by experts as worth

The sergeant was told that their valne would increase, and instead of selfing them he had them framed and placed his treasure in a Cretan bank. As the time was approaching for the departure of the troops of occupation he went to the bank with his wife to withdraw his déposit, and his comrades formed a procession to escort the couple carrying home their fortune in two postage stamps.

Is Woman Too Fresh?

Woman is no longer the sait of the earth; man is, according to the latest discoveries of science as chronicled in the Paris Matin. Not since Lot's wife has woman had enough chloride of sodium in her makeup, and that is the explanation of her general inferiority o man. Woman, says science, is too fresh. The newest conclusion of the laboratory is that the physical an mental development of a human belodepends on the percentage of salt in the blood. The blood of the man has more sait than the blood of the woman and for that reason woman can never expect to equal the sterner sex in physical force, reason or intelligence There is in the Matin's scientific discussion but one redeeming assertion in favor of womanhood-that is, that since her facial angle is nearer to that of the higher animals than man's Is. for that reason her senses are dullet and pain hurts her less than it hurts her salty and more intelligent brother.
